# CALVERT LIBRARY TWIN BEACHES BRANCH

Carrie Wilson, Calvert Library Executive Director

**Projected opening is late winter or early spring of 2024.** 

The new Calvert Library Twin Beaches Branch is coming along nicely! The next phase of work will be to install the beams that support the roof. Once it is under-roof in late spring 2023, work will begin on the interior.

**May 24, 2022**  
**Groundbreaking Ceremony**

We are looking forward to all this new building will bring to the community—meeting and study spaces, a makerspace with technology new to Calvert Library. The library is almost four times as large as the current branch and we hope to have a ribbon cutting in Spring of 2024.

**June 1, 2022**  
**Construction began.**

Check out the library website for more updates as the project continues. Thank you for your patience during the construction process! The library is eager to get community input on some of the “extras” that will be available at the new library; a survey will be coming soon from the library seeking residents' feedback.

**December 7, 2022**  
**Construction progress.**

The view from the 3<sup>rd</sup> floor terrace is spectacular! We are looking forward to being your neighbor! Additional information, time-lapse construction video and online photo album: <https://calvertlibrary.info/about-us/locations/new-twin-beaches-branch/>.

# CALVERT LIBRARY BOOKMOBILE

The Calvert Library Bookmobile parked in North Beach on the first Saturday of each month and provided wi-fi access, computers and printing, library card services, crafts to go, wheelchair lift and more!

# DEPARTMENT OVERVIEW

# DEPARTMENT OF PUBLIC WORKS

## 5<sup>th</sup> Street Stormwater Pumping Station

Project began September 2022 and was delayed due to equipment availability. Project completion is expected by May 2023. Received MDE grant to go toward upgrades that include two 15 hp stormwater pumps and state-of-the-art control panel. 5th Street/Bay Avenue is a main drainage area for 80+ acres (40 acres outside of town) and often becomes flooded during periods of heavy rainfall. Upgraded pumps are expected to remove stormwater at a much faster rate and help with flood mitigation in this area.

## Compound Flood Action Plan

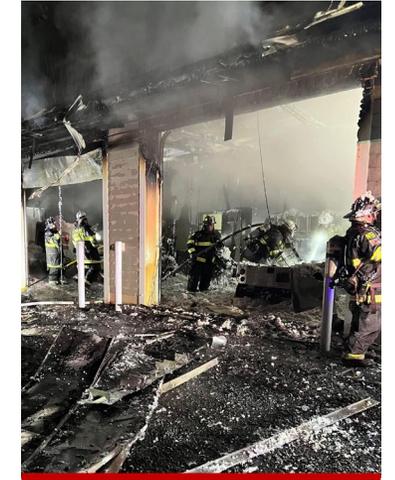

BayLand Consultants and Designers, Inc. was chosen to conduct an in-depth assessment of all town-related flooding issues and to develop a Compound Flood Action Plan. Data collection, field work and compiling resident input was completed in 2022. Received MDE grant to go toward the Compound Flood Action Plan. A draft report is expected from BayLand April 2023.

# DEPARTMENT OF PUBLIC WORKS

## iamGIS Geo-Asset Management

Department of Public Works staff is utilizing a new GIS system which maps the infrastructure of the town. The system allows staff to view, edit and update items related to infrastructure from iPads while in the field. The user-friendly system also allows for documentation of tasks that were performed, including scheduling routine maintenance-type jobs on a recurring basis. The system is very user friendly and has proved to be a great asset and a useful tool for the DPW staff.

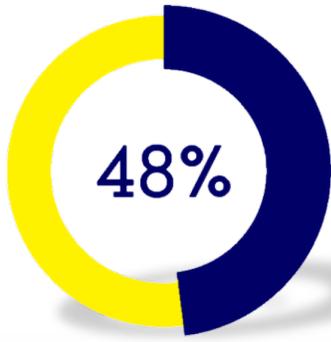

## Building Fire at DPW

On the evening of December 29, 2022, multiple fire departments quickly responded to a building fire at DPW and were able to contain the fire to the garage area of the building. The building was boarded up, a claim was filed with the town's insurance company, LGIT, and cleanup work began.

# WATER AND SEWER

The Water and Sewer Department implemented Muni-Link. This new program includes an online customer portal that allows residents to review and/or receive their bills, review usage history and make payments online. We are diligently looking for ways to keep improving and are always willing to take feedback from our customers.

**492** out of **1,028** customers are registered for the online customer portal.

New door hangers to provide an additional means of communication with customers.

If every American household used eBills and online bill pay, it could reduce solid waste in U.S. landfills by more than 800,000 tons a year and help curb the release of greenhouse gases by 2.1 million tons, according to Javelin Strategy and Research. This could also save an estimated 18.5 million trees a year!

## Go Green, Save a Tree

# BEACH, BOARDWALK & WELCOME CENTER

New Waterfront Manager was hired just in time to start the 2022 beach season. Continued utilizing Click Tickets for beach pass purchases and validation.

New system was put in place to reduce the amount of wait time for town residents to gain access to the beach. Residents now go directly to the gates to present their beach pass to the Town Attendant on duty.

# COMMUNITY CONSERVATION

## Arbor Day

Tree City certification, native tree sapling giveaway and planting of Redbud Tree at Senior Center in honor of Councilwoman Jane Hagen.

## Demonstration Rain Garden

Made possible by Chesapeake Bay Trust Grant. Installed by volunteers and town staff at Wetlands Overlook Park. Slow the Flow Signage and Rain Garden dedicated in June 2022.

## Earth Day Everyday Celebration

At Mark R. Frazer Sunrise Garden in June 2022 with participation from Environmental, Flood and Tree Committees; Watershed Stewards; and North Beach House and Garden Club. A Sweet Bay Magnolia tree was planted.

## SHA Pilot Mitigation Project

Completed at Wetlands Overlook Park in November 2022. Garner Exteriors planted 144 Native Trees, shrubs and wildflowers in beds to create buffer along wetland edge. North Beach Nature Center was also landscaped with project funds.

## Owl Weekend in November 2022

Owl-O-Ween with live owls and guest Naturalist Mike Callahan at Town Hall and Owl Prowl hike at Wetlands Overlook Park trail.

## North Beach Nature Center

Will be hub of Community Conservation events and programs. Internal displays with live animals, aquariums, kids' corner, birding, and science stations. Maryland Department of Nature Resources Community Parks and Playgrounds Program-Assisted Project. To open April 2023 to residents.

## Polar Bear Plunge

For the 2022 Polar Bear Plunge, there were 30 sponsors and 212 plungers on a cold, rainy New Year's Day.

On February 15, 2022, Mayor Benton presented a check in the amount of \$9,348.69 to the Ladies of Charity, Calvert County from the net proceeds of the 2022 Polar Bear Plunge. This energetic group of ladies (and a few gentlemen) volunteered at the Polar Bear Plunge, sold pizza, baked goods and hot chocolate to raise funds for their organization. The Ladies of Charity have been serving those in need in the community for over 50 years.
