3.3 Reservations:

3.3.1. The Town reserves the right to waive formalities or technicalities in bids as the interests of the Town may require.

3.3.2. The Town may waive minor differences in specifications provided these differences do not violate the intent of the specification or materially affect the operation for which the item is being acquired.

3.6 Notice of Award, Signing of Contract and Bonds:

The successful Bidder agrees to sign a contract in substantially the form included in the Request for Proposal (except those certain additional provisions may be required of noncorporate contractors about their status as sole proprietorships or partnerships and their workers' compensation coverage) binding it to the terms of this bid as outlined in the legal notice inviting proposals and the bid documents and any addenda thereto, within ten (10) days of notice of award. Failure of the Bidder to do so may result in the loss of its bid security and/or his award of bid.

3.7 Bid Withdrawals:

Prior to the time of opening, bids may be withdrawn only upon written request received from Bidder to Stacy Milor, Town Clerk at: northbeach@northbeachmd.org. No Bidder may withdraw its bid for a period of one hundred twenty (120) days after the opening of bids.

The submission of a proposal shall indicate that the Bidder thoroughly understands the terms of the bid and the specifications.

3.10 Taxes:

The Contractor shall pay all sales, consumer, use, and other similar taxes required by applicable law to be paid with respect to the work performed or the materials or equipment furnished. The Town of North Beach is exempt from the payment of such taxes with respect to items purchased directly.

3.11 Bid Forms:

The Bid Form and attachments are included in this RFP package. The Bid Form is Attachment F. Bids must be submitted on the attached forms, with all forms being filled out in full. Bidding documents must be clean of alterations or markings. The Bid Form may provide for the submission of a price or prices for one or more items, which may be lump sum Bids, alternate prices, or scheduled items resulting in a Bid on a unit of construction or a combination thereof, or other Bidding arrangements. Unless specifically called for, alternate Bids will not be considered.

3.11.1. Bids for which the prices are unbalanced may be rejected. Unbalanced prices shall be interpreted to mean that the unit price for any item is such that it is unreasonable for that item when considered by itself and not considered in connection with the bid submitted on any other item or items.

3.11.2. Bids shall be based on products, materials, and methods named in the RFP.

3.11.3. The bidder must detach the completed bid form and required attachments and submit them with the bid package. Bids may be modified or withdrawn at any time prior to the opening of the bids. The signing of bids shall comply with the instructions on the bid form.

The spreadsheet will be made available after verification by the Town. In case of a discrepancy between prices in writing and in figures, the writing shall govern. In case of an error in the extension of prices in the Bid, unit prices will govern.

3.12 Execution of the Contract:

3.12.1. Copies of the Contract (Agreement Form) are included in the RFP package. Changes may be made to the Contract form at the sole discretion of the Town. The Bidder should not rely on an expectation of changes in the Contract form.

3.12.2. The Bidder to whom the Contract is awarded shall return two copies of the Contract and such other Documents as required by the Contract Documents properly executed to the Town within seven (7) days after the date of issuance of the Notice of Award.

3.12.3. Failure by the Contractor to execute the Contract and submit such other Documents as required by the Contract Documents and file acceptable insurance and bonds within the time aforesaid shall be just cause for annulment of the Award. Award may then be made to the next lowest responsive and responsible Bidder or the Work may be readvertised and constructed under Contract or otherwise, as the Town may decide.

3.12.4. By executing the Contract, the Contractor represents that it has familiarized itself with, and assumes full responsibility for having familiarized itself with, the nature and extent of the Contract Documents, the work, and the site, and all federal, State, and local laws, ordinances, rules and regulations that may in any manner affect the performance of the Work and represents that it has correlated its study and observations with the requirements of the Contract Documents. The Contractor also represents that it has studied all surveys and investigation reports of subsurface and latent physical conditions referred to in the Contract Documents and made such additional surveys and investigations as it deems necessary for the performance of the Work at the Contract Price in accordance with the requirements of the Contract Documents and that it has correlated the results of all such data with the requirements of the Contract Documents.

The affiant shall also swear or affirm under the penalties of perjury that the Bidder has not been a party with other bidders to any agreement to bid a fixed or uniform price and shall also contain an affirmation that the bidder shall not knowingly enter into a contract with the Town under which a person or business debarred or suspended under Title 16, Subtitle 3 will provide, directly or indirectly, supplies, services, architectural services, construction related services, leases of real property, or construction.

3.13.3. The affidavit required by this Section shall also indicate the Bidder's understanding that all documents, information, and data submitted in its Bid/Proposal shall be treated as public information unless otherwise indicated.

3.15 Bid Bond, Performance Bond, and Payment Bond

The Contractor must submit with their bid package a Bid Bond or cashier's check equal to 5% of the submitted bid. If awarded the contract, at the Town's request, a performance bond in an amount equal to the costs for performing the required work along with a maintenance bond

3.16 Bid Submittal Limit:

A Bidder may submit only one proposal for each RFP. More than one Bid from an individual, firm or partnership, corporation, or association under the same or different names will not be considered and will be considered grounds for disqualification of the Bids involved, and rejection of the Bids.

3.17 Grant-Funded Contracts:

This Agreement may be funded, in whole or in part, using federal or State grant funds and is therefore subject to conditions imposed by regulations of the governmental entity providing such funds. Grant funding requirements are identified in Attachment E to this RFP. It is the Bidder's responsibility to determine the scope and requirements of and to comply with the terms of any regulations relating to or governing the use of such grant funds. Such regulations may under certain circumstances include, but are not limited to, payment of prevailing wage rates, the purchase of materials manufactured in the United States, the maintenance of specific records for specific periods of time, and/or approval of subcontracts.

3.18: Submissions are Public Information

Procurement information, including responses to IFBs and RFPs, shall be a public record to the extent provided in the Maryland Public Information Act, Md. Ann. Code, General Provisions Article, Title 4, and shall be available to the public as provided in such statute. Bidders or offerors shall not make blanket assertions that the entirety of their submission is confidential. Rather, should a bidder or offeror contend that their proposal or a portion thereof contains confidential information, they should clearly identify which portion of their proposal should be treated as confidential and state the reason why it is confidential citing the applicable provision(s) of the Maryland Public Information Act and decisions interpreting the Act. The Town reserves the right, within the parameters of the Act, to determine that an item does not meet the appropriate criteria to be considered a confidential item and will inform the bidder or offeror in writing of its determination. Further, the affidavit required by Section 14 of these Instructions to Bidders shall also indicate the Bidder's understanding that all documents, information, and data submitted in its Bid/Proposal shall be treated as public information unless otherwise indicated.

4. General Conditions

4.2.3. Failure to complete the Services within the time provided in the contract documents may cause the Town to incur economic and non-economic damage and losses of types and amounts that are impossible to compute and ascertain with certainty and accuracy. Accordingly, in lieu of actual damages for such delay, when the Town, in its judgment, determines that such circumstances exist, such liquidated damages as are set forth in the contract may be assessed and recovered by the Town as against the Contractor and its Surety, in the event of delayed completion and without the Town being required to present any evidence of the amount or character of actual damages sustained by reason of the delay. It shall be acknowledged by the Contractor that such liquidated damages represent estimated actual damages and are not intended as a penalty and the Contractor shall pay them to the Town without limiting the Town's right to terminate the Agreement for default as provided elsewhere therein. Should a Bidder require specific information about the nature and amount of liquidated damages, if any, to be included in a contract for a project, the Bidder is advised to make an inquiry prior to bidding.

4.3 Failure to Deliver:

In the event the Contractor fails to deliver the services and materials covered by the Contract and in accordance with the delivery terms stipulated in the contract, then the Town will have the right to purchase on the open market the services and/or materials covered in the Bid Proposal and shall have as damages the cost of obtaining such services and/or materials and any additional costs incurred by the Town as a result thereof.

The Contractor shall maintain the following insurance coverages and shall provide Certificates evidencing such insurance to the Town before beginning work. Certificates of Insurance shall be on an occurrence basis. (2) Property damage liability with a limit of \$100,000 for each accident.

(3) Workers' Compensation: Failure of the Contractor to maintain Worker's Compensation coverage for the duration of the contract will result in the Town deducting from each payment made under this contract to the Contractor, a pre-determined percentage to defray coverage costs of the Town. The contractor shall comply with the requirements and benefits established by the State of Maryland for the provision of Workers' Compensation.

4.6 Indemnification:

The contractor is responsible for any loss, personal injury, death, and any other damage (including incidental and consequential) arising out of, incident to, or caused by reason of the Contractor's actions or inaction. Contractor to perform the service or again provide a replacement product in conformity with contract specifications, at no increase in contract amount.

4.8 Guarantee:
