

## **Town of North Beach 2024 Bike Path Repair Project Questions Received**

**February 14, 2024**

**The following questions were received from one bidder.**

- 1) How much soil should be planned to be excavated? Only enough to achieve the 4' of asphalt and subgrade? **Yes, except for locating existing utility lines.**
- 2) What unit price should the removal and replacement of boardwalk fall under? The sheeting line item? **There are no plans to remove or replace the boardwalk.**
- 3) Once the boardwalk is removed is the contractor responsible for replacing rotted wood or will this be a change order item? **The boardwalk removal is not planned, only for access points for inspection. The Department of Public Works will assist with removal.**
- 4) Are we able to use the parking area for storage of material/stockpile area? **Yes, arrangements will be made to utilize the Town of North Beach Parking Lot.**
- 5) Should the planters need to be deconstructed in order to have room to work with equipment, is that a possibility? **Yes, the contractor will be responsible for returning the planter boxes in their current condition.**
