## WINTER PROGRAMS

### *Winter Waterfowl Walk*

JANUARY 28, 2023 / 9-11 AM

The Chesapeake Bay hosts large rafts of wintering waterfowl that may be seen from the North Beach Pier. Learn about colorful ducks, geese and swans and help count them for a waterfowl survey. Bring binoculars and cameras for documenting sightings. Meet near the Welcome Center.

### *Valentine's Campfire at Wetlands Overlook Park*

FEBRUARY 12, 2023 / 1-3 PM

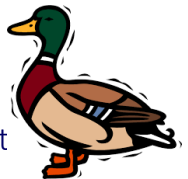

What better way to celebrate Valentine's Day than by making winter treats for the birds to show we care and making Valentine crafts at the make-and-take table? Warm up, roast marshmallows and enjoy a hot drink around the campfire ring. Sound heartwarming?

### *Duck Movie and Duck Walk to Celebrate Duck Day*

FEBRUARY 25, 2023 / 1-2 PM / WALK AFTER

Watch PBS's "Duck-umentary" on the big screen at Town Hall and then go out for a duck walk along the pier and waterfront to see what ducks we have in the Chesapeake Bay. This program is recommended for birders, families, and anyone that wants to learn about ducks!

### *Wearing of the Green Afternoon Nature*

### *Walk at Wetlands Overlook Park*

MARCH 4, 2023 / 2-4 PM

Explore the early signs of spring, look for four-leaf clovers and perhaps find a leprechaun's hidden pot of gold. This program is for families with children 5 and up. Strollers are not permitted on the nature trail. Register with Lisa Garrett. The rain date or overflow date is March 18, 2023. Walk is limited to 15 people per walk.
