

NORTH BEACH SUNRISE GARDEN PLANT LIST (provided by Calvert County Master Gardeners)

Common Name	Scientific Name	Color	Characteristics	Hgt	Spread/Spacing	Quantity	Other Comments	Type
Azalea 'mandarin lights'	<i>Rhododendron</i> 'Mandarin Lights'	Orange	deciduous	4-5'	3-4'	6 + 6; 2 groupings	spring bloom, needs regular water in extreme heat	Shrub
Beautyberry	<i>Callicarpa americana</i>	Pink	white blooms/purple berries	3-9'	3-5'	7 + 5; 2 groupings	Shrub; berries provide food for birds and other wildlife	Shrub
Serviceberry	<i>Amelanchier canadensis</i>	white	blooms April -May	6-20'	6-20'	1 + 1; 2 groupings	Birds eat berries	Shrub or small tree
Virginia sweetspire	<i>Itea virginica</i>	white	blooms April-June	6-10'	6-10'	6 + 5; 2 groupings	grows in wet areas; needs watering during drought	Shrub
Chicago lustre viburnum	<i>Viburnum dentatum</i> 'Synnesvedt'	white	Spring blooming	8'	6-12'	3 + 3+ 5; 3 groupings	bluish-black berries in fall- good for birds; 8' spread	Shrub
Buttonbush	<i>Cephalanthus occidentalis</i>	white	attracts pollinators	6-12'	12-20'	2	prefers wetter area but can adapt to drier area	Shrub
Bee Balm	<i>Monarda didyma</i>	Red	blooms July-Sept	2-5'	1'	12 + 8 + 8; 3 groupings	attracts pollinators; spreads by runners	Perennial
Purple coneflower	<i>Echinacea purpurea</i>	purple	attracts pollinators	2-5'	1'	5 + 5+ 5	attracts pollinators, goldfinches eat seeds	Perennial
Daylilly	<i>Heemerocallis</i> spp.	various		2-3'	1-2'	15	many varieties	Perennial
St johns wort	<i>Hypericum densiflorum</i>	yellow	blooms July-Sept	1.5 - 6'	3-6'	3	small shrub; prefers moister area; replaces <i>Hypericum frondosum</i> 'Sunburst'	Perennial
Black eyed susan	<i>Rudbekia hirta</i>	yellow	blooms June - Oct	1-3.5'	1'	5 + 5+ 5; 3 groupings	State flower, attracts pollinators, goldfinches eat seeds	Perennial
Tussock Sedge	<i>Carex stricta</i>		clump forming	1-3.5'		5	Suggest carex stricta; for wetter areas	Perennial
Native honeysuckle	<i>Lonicera sempervirens</i>	orange-red/yellow	blooms April-Oct	6-12'	2-3'	3	attracts hummingbirds	Vine
Butterfly milkweed	<i>Asclepias tuberosa</i>	orange	blooms May - June	1-3'	1-2'	5 + 5 + 5 + 5; four groupings	dry area; host plant for monarch caterpillars	Perennial
Lizards tail	<i>Saururus cernuus</i>	white	blooms June - Sept	1.5-4.5'		3; pond (corner of Bay Ave and 3rd street)	native water plant	Perennial
Seashore mallow	<i>Kosteletzkya virginica</i>	pink	blooms July-Sept.	1.5-4.5'		3 + 3; 2 groupings - 3 in each pond	native water plant - brackish and freshwater	Perennial
Fragrant waterlilly	<i>Nymphaea odorata</i>	white	blooms June - Sept			3; upper pond (closest to gazebo)	native water plant	Perennial
New York ironweed	<i>Vernonia noveboracensis</i>	purple	blooms Aug -Oct	3.5-8'	1'	7; surrounded by white turtlehead	prefers moister area	Perennial
White turtlehead	<i>Chelone glabra</i>	white	blooms July-Oct	1.5-6.5'	1'	15; will surround NY ironweed	for butterflies; host plant for Baltimore checkerspot butterfly; prefers moister area	Perennial
Sweet pepperbush	<i>Clethra alnifolia</i>	white	summer blooms; very fragrant	6-12'	4-6'	3	suggest ruby spice or hummingbird; tolerates some flooding by brackish water	Shrub

Joe pye weed	<i>Eutrochium (Eupatorium) dubium</i>	purple	blooms late summer-early fall	1.3-4.5'	1'	3 + 3 + 3; 3 groupings - in the middle of the groupings with H, K, & N	attract many pollinators including bees and butterflies	Perennial
Native wisteria	<i>Wisteria frutescens</i>	purple	blooms summer	vine		2		Vine
Carolina jasmine	<i>Gelsemium sempervirens</i>	yellow	blooms spring	vine		2		Vine

Stormwater Retention Area

assorted coneflowers	<i>Echinacea</i> sp.	assort+D3+C27: C39	blooms summer	2-5'	attract bees and butterflies	Perennial
Cardinal flower	<i>Penstemon cardinalis</i>	red	blooms summer- early fall	2-4'	attracts hummingbirds	Perennial
orange coneflower	<i>Rudbeckia fulgida</i> ('Goldstrum' variety)	yellow/brown	blooms June - October	2-3'		Perennial
Feather reed grass 'Karl Foerster'	<i>Calamagrostis x acutiflora</i> 'Karl Foerster'	off white	blooms June-July	36-48"	Although this is not native, this grass appears to be non-invasive	Grass
Joe pye weed	<i>Eutrochium (Eupatorium) dubium</i>	purple	blooms late summer-early fall	1.3-4.5'	good for pollinators	Perennial
Northern bayberry	<i>Myrica pennsylvancia</i>	green to red	blooms late spring	up to 12'	berries provide food for birds and other wildlife	Shrub
red twig dogwood	<i>Cornus sericea</i>	white	blooms May - June	6-12'	best in moist soil, but can adapt to drier areas	Shrub
Swamp mallow	<i>Hibiscus moscheutos</i>	white/red	blooms July - September	3-6'	attracts hummingbirds	Perennial
Swamp milkweed	<i>Asclepias incarnata</i>	pink	blooms June - October		host plant for monarch butterflies	Perennial
Sweet pepperbush	<i>Clethra alnifolia</i> 'Ruby Spice'	white	summer blooms; very fragrant	6-12'	suggest ruby spice or hummingbird; tolerates some flooding by brackish water	Shrub
Switchgrass	<i>Panicum virgatum</i> (varieties such as 'Squaw')	reddish purple	August - October	3-6'	grows in clumps; seeds provide food and cover for birds	Grass
Virginia blue flag	<i>Iris virginica</i>	purple-blue	May	2'	NOTE: <i>Iris pseudacorus</i> (yellow iris, or water flag) is very invasive; should not be used	Perennial
White turtlehead	<i>Chelone glabra</i>	white	blooms July-Oct	1.5-6.5'	for butterflies; host plant for Baltimore checkerspot butterfly; prefers moister area	Perennial
