

Town of North Beach  
8916 Chesapeake Avenue  
P. O. Box 99  
North Beach, Maryland 20714

**ORDINANCE NO: 17-13**

AN ORDINANCE REPEALING ARTICLE 10 "CRITICAL AREA OVERLAY DISTRICT REQUIREMENTS" OF THE NORTH BEACH ZONING ORDINANCE AND ENACTING A NEW ARTICLE X "CRITICAL AREA OVERLAY DISTRICT REQUIREMENTS" OF THE TOWN ZONING ORDINANCES

WHEREAS, the Town of North Beach is authorized by Maryland Annotated Code Land Use Article §4.01 et seq. to enact and administer rules and regulations for land located within the Chesapeake Bay Critical Area; and

WHEREAS, pursuant to this authority the Town adopted Article 10 – Critical Area Overlay District Requirements of the Town of North Beach Zoning Ordinance; and

WHEREAS, the Maryland Critical Area Commission has recommended to The Town of North Beach that Article 10 of the Town Zoning Ordinance be repealed and replaced with a new Article 10 "Critical Area Overlay District Requirements" containing the most recent updates to the State critical area requirements issued by the Maryland Critical Area Commission for the Chesapeake and Coastal Bays; and

WHEREAS, the Mayor and Council of the Town of North Beach desire to repeal Town Zoning Ordinance Article 10 and replace it with the attached document which was prepared with guidance from the Maryland Critical Area Commission for the Chesapeake and Atlantic Coastal Bays;

NOW, THEREFORE, BE IT ORDAINED BY THE MAYOR AND TOWN COUNCIL OF THE TOWN OF NORTH BEACH THAT:

- 1) Article 10 – Critical Area Overlay District Requirements adopted August 1, 2017 is hereby repealed in its entirety.
- 2) A new Article X Critical Area Overlay District Requirements attached hereto as Exhibit "A" is hereby enacted.

AND BE IT FURTHER ORDAINED by the Mayor and Council of the Town of North Beach that upon passage of this Ordinance the same shall be authenticated by the signature of the Mayor and Town Clerk to be recorded among the Town books kept for that purpose and that a certified copy of this Ordinance shall be posted and advertised pursuant to Sec. 19-311 of the Town Charter.

AND BE IT FURTHER ORDAINED that this Ordinance shall become effective on the \_\_\_\_\_ of \_\_\_\_\_ 2017 after being read after two (2) consecutive Town Meetings as mandated by Sec. 19-311 of the Town Charter.

By order of the Mayor and Council

---

Mark R. Frazer, Mayor

## EXHIBIT A

THE FOLLOWING IS ADOPTED AS NEW LANGUAGE TO BE ADDED TO THE TOWN ZONING ORDINANCE AS ARTICLE X "CRITICAL AREA OVERLAY DISTRICT REQUIREMENTS.

### ARTICLE 10 CRITICAL AREA OVERLAY DISTRICT REQUIREMENTS

#### 10-100 INTRODUCTION CRITICAL AREA PROGRAM REQUIREMENTS

This Article contains requirements for development in the Critical Area Overlay District as described in §117-16. Requirements contained in Article 10 supersede all requirements contained elsewhere in the North Beach Zoning Ordinance.

#### Part 1: IMPLEMENTATION OF THE CRITICAL AREA PROGRAM PURPOSE AND GOALS

- A. Goals: The goals of the Town of North Beach Critical Area Program are to accomplish the following:
  - 1. Minimize adverse impacts on water quality that result from pollutants that are discharged from structures or run-off from surrounding lands;
  - 2. Conserve fish, wildlife, and plant habitat; and
  - 3. Establish land use policies for development in the Critical Area which accommodate growth as well as address the environmental impacts that the number, movement, and activities of people may have on the area.
- B. The Town of North Beach Critical Area Program  
The Town of North Beach Critical Area Program consists of Sections 117-7, 117-16 and Article X of the Town of North Beach Zoning Ordinance and the Official Town of North Beach Critical Area Overlay District Maps(s). Related provisions may be found in the Town of North Beach Subdivision Regulations.
- C. Regulated Activities and Applicability  
Any applicant for a permit or license to pursue activities within the Critical Area, as that term is defined in Town Code, Sec. 117-16, including but not limited to, development or redevelopment, grading, sediment and erosion control, timber harvesting, shoreline erosion control, installation of a septic system and drain field, operation of a waste collection or disposal facility, operation of a commercial or private marina or other water-related commercial or industrial operation (whether public or private), mining (whether surface or sub-surface) or quarrying, farming or other agriculture-related activities shall have such permits or licenses issued by the Zoning Administrator, after a determination of compliance with the Critical Area requirements of the Town of North Beach Zoning Ordinance.
- D. Critical Area Overlay District Map
  - 1. The Official Critical Area Overlay District Map is maintained in force as part of the Official Zoning Map for the Town of North Beach. The Official Critical Area Overlay District Map delineates the extent of the Critical Area Overlay District within the Town, which shall include:

- a. All waters of and lands under the Chesapeake Bay and its tributaries to the head of tide, and all state and private wetlands designated under Title 16 of the Environment Article of the Annotated Code of Maryland; and
    - b. All land and water areas within 1,000 feet beyond the landward boundaries of state or private wetlands and the heads of tides designated under Title 16 of the Environment Article of the Annotated Code of Maryland.
  2. Within the designated Critical Area Overlay District, all land shall be assigned one of the following land management and development area classifications:
    - a. Intensely Developed Area (IDA)
    - b. Limited Development Area (LDA)
    - c. Resource Conservation Area (RCA)
  3. The Critical Area Overlay District Map may be amended by the Mayor and Town Council in compliance with amendment provisions in this Chapter, Md. Natural Resources Code Ann., Title 8 "Waters", Subtitle 18 (the "Maryland Critical Area Law"), and the Code of Maryland Regulations ("COMAR"), Title 27.
- E. General Requirements in all Critical Area Overlay Zones
1. New solid or hazardous waste collection or disposal facilities, or sanitary landfills, including transfer stations, may not be permitted in the Critical Area unless no environmentally preferable alternative exists outside the Critical Area, and these development activities or facilities are needed in order to correct an existing water quality wastewater management problem. Existing permitted facilities shall be subject to the standards and requirements of the Department of the Environment.
  2. Development and redevelopment shall be subject to the requirements of this Article, including but not limited to those provisions relating to Habitat Protection Areas and water-dependent facilities .
  3. Roads, bridges, and utilities are prohibited in a Habitat Protection Area unless no feasible alternative exists. If a road, bridge or utility is authorized the design, construction and maintenance shall:
    - a. Provide maximum erosion protection;
    - b. Minimize negative impacts on wildlife, aquatic life and their habitats; and
    - c. Maintain hydrologic processes and water quality.
  4. All development activities that must cross or affect streams shall be designed to:
    - a. Reduce increases in flood frequency and severity that are attributable to development;
    - b. Retain tree canopy so as to maintain stream water temperature within normal variation;
    - c. Provide a natural substrate for stream beds; and
    - d. Minimize adverse water quality and quantity impacts of stormwater.
  5. Reasonable accommodations for the needs of disabled citizens.
    - a. An applicant seeking relief from the Critical Area standards contained in this Ordinance, in order to accommodate the reasonable needs of disabled citizens, shall have the burden of demonstrating by a preponderance of evidence the following:
      - i. The alterations will benefit persons with a disability within the meaning of the Americans with Disabilities Act.
      - ii. Literal enforcement of the provisions of this Ordinance would result in discrimination by virtue of such disability or deprive a disabled resident or user of the reasonable use and enjoyment of the property.

- iii. A reasonable accommodation would reduce or eliminate the discriminatory effect of the provisions of this Ordinance or restore the disabled resident's or user's reasonable use or enjoyment of the property.
  - iv. The accommodation requested will not substantially impair the purpose, intent, or effect, of the provisions of this Ordinance as applied to the property; and
  - v. The accommodation would be environmentally neutral with no greater negative impact on the environment than the literal enforcement of the statute, ordinance, regulation or other requirement; or would allow only the minimum environmental changes necessary to address the needs resulting from the particular disability of the applicant/appellant.
- b. The North Beach Board of Appeals shall determine the nature and scope of any accommodation under this Ordinance, and may award different or other relief than requested after giving due regard to the purpose, intent, or effect of the applicable provisions of this Ordinance. The Board may also consider the size, location, and type of accommodation proposed and whether alternatives exist which accommodate the need with less adverse effect.
  - c. The Board of Appeals may require, as a condition of approval, that upon termination of the need for accommodation, that the property be restored to comply with all applicable provisions of this Ordinance. Appropriate bonds may be collected or liens placed in order to ensure the Town of North Beach's ability to restore the property should the applicant fail to do so.

## **Part 2: INTENSELY DEVELOPED AREAS**

### **Development Standards**

- 1. The following uses may only be permitted in the IDA only after the activity or facility has demonstrated to all appropriate local and State permitting agencies that there will be a net improvement in water quality to the adjacent body of water. These activities include the following:
  - a. Non-maritime heavy industry;
  - b. Permanent sludge handling, storage, and disposal facilities, other than those associated with wastewater treatment facilities. However, agricultural or horticultural use of sludge under appropriate approvals when applied by an approved method at approved application rates may be permitted in the Critical Area, except in the 100-foot Buffer.
- 2. Development activities shall be designed and implemented to minimize destruction of forest and woodland vegetation;
- 3. All development and redevelopment activities shall include storm water management technologies that reduce pollutant loadings by at least 10 percent below the level of pollution on the site prior to development or redevelopment as provided in the Critical Area 10% Rule Guidance Manual – Fall 2003 and as may be subsequently amended.

## **Part 3: LIMITED DEVELOPMENT AREAS**

### **Development Standards**

- 1. If there is a wildlife corridor system identified by the Wildlife Heritage Service on or near the site which can be enhanced by additional plantings, the applicant shall incorporate a wildlife

corridor system that connects the largest undeveloped or most vegetative tracts of land within and adjacent to the site in order to provide continuity of existing wildlife and plant habitats with offsite habitats. The wildlife corridor system may include Habitat Protection Areas identified in this Ordinance. The Town of North Beach shall ensure the maintenance of the wildlife corridors by requiring the establishment of conservation easements, restrictive covenants, or similar instruments approved by the Town of North Beach and the Town Attorney through which the corridor is preserved by public or private groups, including homeowners associations, nature trusts and other organizations.

2. Development on slopes 15 percent or greater, as measured before development, shall be prohibited unless the project is the only effective way to maintain or improve the stability of the slope and is consistent with the policies and standards for Limited Development Areas.
3. Except as otherwise provided in this subsection, for storm water run-off, lot coverage is limited to 15% of a lot or parcel or any portions of a lot or parcel that are designated LDA.
  - a. If a parcel or lot of one-half acre or less in size existed on or before December 1, 1985, then lot coverage is limited to twenty-five percent (25%) of the parcel or lot.
  - b. If a parcel or lot greater than one-half acre and less than one acre in size existed on or before December 1, 1985, then lot coverage is limited to fifteen percent (15%) of the parcel or lot.
  - c. If an individual lot one acre or less in size is part of a subdivision approved after December 1, 1985, then lot coverage may exceed fifteen percent (15%) of the individual lot; however, the total lot coverage for the entire subdivision may not exceed fifteen percent (15%).
  - d. Lot coverage limits provided in subsections (a) and (b) above may be exceeded, upon findings by the Planning Commission or its designee that the following conditions exist:
    - i. The lot or parcel is legally nonconforming. A lot or parcel legally developed as of July 1, 2008 may be considered legally nonconforming for the purposes of lot coverage requirements;
    - ii. Lot coverage associated with new development activities on the property have been minimized;
    - iii. For a lot or parcel one-half acre or less in size, total lot coverage does not exceed the lot coverage limits in subsection (a) by more than twenty-five percent (25%) or five hundred square feet (500 s.f.), whichever is greater;
    - iv. For a lot or parcel greater than one-half acre and less than once acre in size, total lot coverage does not exceed the lot coverage limits in subsection (b) or five thousand four hundred and forty-five square feet (5,445 s.f.), whichever is greater;
    - v. The following table summarizes the limits set forth in subsections (i) through (iv) above:

**Lot Coverage Limits**

<u>Lot/Parcel Size (square feet)</u>	<u>Lot Coverage Limit</u>
0 – 8,000	25% of parcel = 500 square feet
8,001 – 21,780	31.25% of parcel
21,781 – 36,300	5,445 square feet
36,301 – 43,560	15% of parcel

- e. If the Planning Commission or its designee makes the findings set forth in subsection (d) above and authorizes an applicant to use the lot coverage limits set forth in that paragraph, the applicant shall:

- i. Demonstrate that water quality impacts associated with run-off from the development activities that contribute to lot coverage have been minimized through site design considerations or the use of best management practices to improve water quality; and
  - ii. Provide on-site mitigation in the form of plantings to offset potential adverse water quality impacts from the development activities resulting in new lot coverage. The plantings shall be equal to two times the area of the development activity.
  - iii. If the applicant cannot provide appropriate storm water treatment and plants due to site constraints, then the applicant shall pay a fee, to the Town of North Beach, in lieu of performing the on-site mitigation. The amount of the fee shall be \$1.50 per square foot of the required mitigation.
- 4. The alteration of forest and developed woodlands shall be restricted and shall be mitigated as follows:
  - a. The total acreage in forest and developed woodlands within the Town of North Beach in the Critical Area shall be maintained or preferably increased;
  - b. All forest and developed woodlands that are allowed to be cleared or developed shall be replaced in the Critical Area on not less than an equal area basis;
  - c. If an applicant is authorized to clear more than twenty percent (20%) of a forest or developed woodlands on a lot or parcel, the applicant shall replace the forest or developed woodlands at 1.5 times the areal extent of the forest or developed woodlands cleared, including the first twenty percent (20%) of the forest or developed woodlands cleared.
  - d. An applicant may not clear more than thirty percent (30%) of a forest or developed woodlands on a lot or parcel, unless the Board of Appeals grants a variance and the applicant replaces forest or developed woodlands at a rate of three times the areal extent of the forest or developed woodlands cleared.
  - e. If an applicant is authorized to clear any percentage of forest or developed woodland, the remaining percentage shall be maintained through recorded, restrictive covenants or similar instruments approved by the Town of North Beach.
- 5. The following are required for forest or developed woodland clearing as required in subsection (4) above:
  - a. The applicant shall ensure that any plants that die within twenty-four (24) months of installation shall be replaced. A performance bond in an amount determined by the Town of North Beach shall be posted to assure satisfactory replacement as required in subsection (4) above and plant survival.
  - b. A permit issued by the Town of North Beach before forest or developed woodland is cleared. Forests and developed woodlands which have been cleared before obtaining a Zoning permit is a violation of this Article and shall be replanted at three times the areal extent of the cleared forest.
  - c. Clearing of forest or developed woodlands that exceed the maximum area allowed in subsection (4) above shall be replanted at three times the areal extent of the cleared forest.
  - d. If the areal extent of the site limits the application of the reforestation standards in this section the applicant may be allowed to plant offsite or pay a fee in lieu of planting.
- 6. If no forest is established on proposed development sites, these sites shall be planted to provide a forest or developed woodland cover of at least fifteen percent (15%).
  - a. The applicant shall designate, subject to the approval of the Town of North Beach, a few forest areas on a part of the site not forested; and

- b. The afforested area shall be maintained as forest cover through easements, restrictive covenants or other protective instruments approved by the Town of North Beach and the Town Attorney.
7. All forest, including afforested areas, shall be maintained through conservation easements, restricted covenants, or other protective instruments.

#### Part 4: RESOURCE CONSERVATION AREAS

##### Development Standards

1. Nothing in this Section shall limit the ability of a participant in any agricultural easement program to convey real property impressed with such an easement to family members provided that no such conveyance will result in a density greater than one dwelling unit per 20 acres;
2. Land use management practices shall be consistent with the policies and criteria for the Habitat Protection Area provisions of this Ordinance.
3. Development activity within the Resource Conservation Areas shall be consistent with the requirements and standards for Limited Development Areas as specified in this Ordinance.
4. Land within the Resource Conservation Area may be developed for residential uses at a density not to exceed one dwelling unit per 20 acres. In calculating the 1-in-20 acre density of development that is permitted on a parcel located within the Resource Conservation Area, one:
  - a. Shall count each dwelling unit;
  - b. May permit the area of any private wetlands located on the property to be included under the following conditions:
    - i. The density of development on the upland portion of the parcel may not exceed one dwelling unit per eight (8) acres; and
    - ii. The area of private wetlands shall be estimated on the basis of vegetative information as designated on the State wetlands maps or by private survey approved by the Town of North Beach, the Commission, and Maryland Department of the Environment.

#### Part 5: SUPPLEMENTAL USE STANDARDS

The following supplemental use standards apply to the permitted uses listed in Table A(1) below and shall apply when the permitted use is allowed in the underlying zoning district.

Table A(1)				
LEGEND:				
P = Permitted if allowed in the underlying zoning district.				
PC = Permitted with conditions if allowed in the underlying zoning district.				
NP = Not permitted				
Item	Use Description	Land Use Management Designation		
		IDA	LDA	RCA
1.00	<b>RESIDENTIAL</b>			
1.10	Accessory Dwelling Unit	P	P	PC
2.00	<b>INSTITUTIONAL</b>			
2.10	Existing Institutional Uses	P	P	PC

2.20	New Institutional Uses	P	P	NP
2.30	Cemetery	P	P	PC
2.40	Group Home	P	P	PC
2.50	Day Care	P	P	PC
3.00	<b>COMMERCIAL</b>			
3.10	Existing Commercial Uses	P	P	PC
3.20	New Commercial Uses	P	P	NP
3.30	Home Occupation	P	P	PC
3.40	Bed and Breakfast Facility	P	P	PC
4.00	<b>MARITIME/WATER DEPENDENT</b>			
4.10	Expansion of Existing Commercial Marinas	P	P	PC
4.20	New Marina, Commercial	P	P	NP
4.30	Community Piers and Non-commercial Boat Docking and Storage	P	P	PC
4.40	Public Beaches and Public Water-oriented Recreational and Educational Areas	P	P	PC
4.50	Research Areas	P	P	PC
4.60	Fisheries Activities	P	P	P
4.70	Structures on Piers	PC	PC	PC
4.80	Private Pier	P	P	P
5.00	<b>RECREATION</b>			
5.10	Golf Course	P	P	PC
6.00	<b>INDUSTRIAL</b>			
6.10	Existing Industrial Uses	P	P	PC
6.20	New Industrial Uses	P	PC	NP
6.30	Non-maritime Heavy Industry	P	NP	NP
7.00	<b>TRANSPORTATION/PARKING/COMMUNICATIONS/UTILITIES</b>			
7.10	Utility Transmission Facilities	PC	PC	PC
8.00	<b>PUBLIC/QUASI-PUBLIC</b>			
8.10	Sanitary Landfill; Rubble Fill	PC	PC	PC
8.20	Solid or Hazardous Waste Collection or Disposal Facilities	PC	PC	PC
8.30	Sludge Facilities	PC	PC	PC

**A. Accessory Dwelling Unit.**

1. If a permitted use is established in the underlying zoning district, one additional dwelling unit (accessory dwelling unit) as part of a primary dwelling unit may be permitted in the Resource Conservation Area provided the additional dwelling unit is served by the same sewage disposal system as the primary dwelling unit, and:
  - a. Is located within the primary dwelling unit and does not increase the amount of lot coverage already attributed to the primary dwelling unit; or
  - b. Its entire perimeter is within one hundred feet (100') of the primary dwelling unit and does not exceed nine-hundred square feet (900 s.f.) in total enclosed area.
2. An additional dwelling unit meeting all of the provisions of this section may not be subdivided or conveyed separately from the primary dwelling unit; and
3. The provisions of this section may not be construed to authorize the granting of a variance, unless the variance is granted in accordance with the variance provisions contained herein.

**B. Existing Institutional Uses**

1. Existing institutional facilities, including those that directly support agriculture, forestry, aquaculture or residential development shall be allowed in Resource Conservation Areas.
2. Expansion of existing institutional facilities and uses in the Resource Conservation Area shall be subject to the non-conforming use provisions of this Ordinance and the Grandfathering provisions in Part 7, and may require growth allocation.

C. New Institutional Uses

1. New institutional facilities and uses, except those specifically listed shall not be permitted in Resource Conservation Areas.
2. Certain institutional uses may be permitted if allowed in the underlying zoning district and if the use complies with all requirements for such uses as provided in the Town of North Beach Zoning Ordinance. These institutional uses are limited to:
  - a. A cemetery that is an accessory use to an existing church; provided manmade lot coverage is limited to fifteen percent of the site or twenty-thousand square feet (20,000 s.f.), whichever is less;
  - b. A day care facility in a dwelling where the operators live on the premises and there are no more than eight children;
  - c. A group home or assisted living facility with no more than eight residents; and
  - d. Other similar uses determined by the Town of North Beach and approved by the Critical Area Commission to be similar to those listed above.

D. Existing Commercial Uses

1. Existing commercial facilities and uses, including those that directly support agriculture, forestry, aquaculture or residential development shall be allowed in Resource Conservation Areas.
2. Expansion of existing commercial facilities and uses in the Resource Conservation Area shall be subject to the non-conforming use provisions of this Ordinance and the Grandfathering provisions in Part 7 and may require growth allocation.

E. New Commercial Uses

1. New commercial uses, except those specifically listed, shall not be permitted in Resource Conservation Areas.
2. Certain commercial uses may be permitted if allowed in the underlying zoning district and if the use complies with all requirements for such uses as provided in the Town of North Beach Zoning Ordinance. These commercial uses are limited to:
  - a. A home occupation as an accessory use on a residential property and as provided for in the Town of North Beach's Zoning Ordinance;
  - b. A bed and breakfast facility located in an existing residential structure and where meals are prepared only for guests staying at the facility; and,
  - c. Other uses determined by the Town of North Beach and approved by the Critical Area Commission to be similar to those listed above.

F. Expansion of Existing Commercial Marinas

1. Expansion of existing commercial marinas may be permitted within Resource Conservation Areas provided:
  - a. Water quality impacts are quantified and appropriate Best Management Practices that address impacts are provided:

- b. That it will result in an overall net improvement in water quality at or leaving the site of the marina;
    - c. The marina meets the sanitary requirements of the Department of the Environment; and
    - d. Expansion is permitted under the non-conforming use provisions of this Ordinance.
  - 2. Expansion of existing commercial marinas may be permitted in the Buffer in the Intensely Developed Areas and Limited Development Areas provided that the application demonstrates:
    - a. The project meets a recognized private right or public need;
    - b. Adverse effects on water quality, fish, plant and wildlife habitat are minimized;
    - c. Insofar as possible, non-water dependent structures or operation associated with water-dependent projects or activities are located outside the buffer; and
    - d. Expansion is permitted under the non-conforming use provisions of this Ordinance.
- G. New Marina, Commercial
  - 1. New commercial marinas shall not be permitted in Resource Conservation Areas.
  - 2. New commercial marinas may be permitted in Limited Development Areas and Intensely Developed Areas if allowed in the underlying zoning, provided:
    - a. New marinas shall establish a means of minimizing the discharge of bottom wash waters into tidal waters.
    - b. New marinas meet the sanitary requirements of the Department of the Environment.
    - c. New marinas may be permitted in the Buffer in the Intensely Developed Areas and Limited Development Areas provided that it can be shown:
      - i. The project meets a recognized private right or public need;
      - ii. Adverse effects on water quality, fish, plant and wildlife habitat are minimized; and
      - iii. Insofar as possible, non-water dependent structures or operations associated with water-dependent projects or activities are located outside the Buffer.
- H. Community piers and noncommercial boat docking and storage
  - 1. New or expanded community marinas and other non-commercial boat-docking and storage facilities may be permitted in the Buffer subject to the requirements in this Ordinance provided that:
    - a. These facilities may not offer food, fuel, or other goods and services for sale and shall provide adequate and clean sanitary facilities;
    - b. The facilities are community-owned and established and operated for the benefit of the residents of a platted and recorded riparian subdivision;
    - c. The facilities are associated with a residential development approved by the Town of North Beach for the Critical Area and consistent with all State requirements and the requirements of this Ordinance applicable to the Critical Area;
    - d. Disturbance to the Buffer is the minimum necessary to provide a single point of access to the facilities; and
    - e. If community piers, slips, or moorings are provided as part of the new development, private piers in the development are not allowed.
  - 2. Number of slips or piers permitted.
    - a. The number of slips or piers permitted at the facility shall be the lesser of subsection i or subsection ii below:

- i. One slip for each 50 feet of shoreline in the subdivision in the Intensely Developed and Limited Development Areas and one slip for each 300 feet of shoreline in the subdivision in the Resource Conservation Area; or
- ii. A density of slips or piers to platted lots or dwellings within the subdivision in the Critical Area according to the following schedule:

Table (b). 2 Number of Slips Permitted

<b>Platted Lots or Dwellings in the Critical Area</b>	<b>Slips</b>
up to 15	1 for each lot
16 – 40	15 or 75% whichever is greater
41 – 100	30 or 50% whichever is greater
101 – 300	50 or 25% whichever is greater
over 300	75 or 15% whichever is greater

- I. Public beaches and public water-oriented recreational and educational areas
  1. Public beaches or other public water-oriented recreation or education areas including, but not limited to, publicly owned boat launching and docking facilities and fishing piers may be permitted in the Buffer in Intensely Developed Areas.
  2. These facilities may be permitted within the Buffer in Limited Development Areas and Resource Conservation Areas provided that:
    - a. Adequate sanitary facilities exist;
    - b. Service facilities are, to the extent possible, located outside the Buffer;
    - c. Permeable surfaces are used to the extent practicable, if no degradation of groundwater would result;
    - d. Disturbance to natural vegetation is minimized; and
    - e. Areas for possible recreation, such as nature study, and hunting and trapping, and for education, may be permitted in the Buffer within Resource Conservation Areas if service facilities for these uses are located outside of the Buffer.
- J. Research Areas
  1. Water-dependent research facilities or activities operated by State, Federal, or local agencies or educational institutions may be permitted in the Buffer, if non-water dependent structures or facilities associated with these projects are, to the extent possible, located outside of the Buffer.
- K. Fisheries Activities
  1. Commercial water-dependent fisheries including, but not limited to structures for crab shedding, fish off-loading docks, shellfish culture operations and shore-based facilities necessary for aquaculture operations and fisheries activities may be permitted in the Buffer in Intensely Developed Areas, Limited Development Areas and Resource Conservation Areas.

L. Structures on Piers

1. Except as provided in (a), (b), and (c) below, construction of a dwelling unit or other non-water-dependent structure on a pier located on State or private tidal wetlands within the Critical Area is prohibited.
  - a. A building permit for a project involving the construction of a dwelling unit or other non-water-dependent structure on a pier located on State or private wetlands within the Critical Area is subject to the provisions of Subparagraph U.
  - b. A building permit for the repair of an existing dwelling unit or other non-water-dependent structure on a pier located on State or private wetlands within the Critical Area may be approved.
  - c. If a structure that is not water-dependent is permitted under the exceptions included in this section, an applicant is required to demonstrate that the project will meet the following environmental objectives using the standards established herein:
    - i. The construction and operation of the project will not have a long term adverse effect on the water quality of the adjacent body of water;
    - ii. The quality of storm water runoff from the project will be improved; and
    - iii. Sewer lines or other utility lines extended for the pier will not affect the water quality of adjoining waters.

M. Existing Industrial Uses

1. Existing industrial facilities and uses, including those that directly support agriculture, forestry, or aquaculture may be permitted in Resource Conservation Areas.
2. Expansion of existing industrial facilities and uses in the Resource Conservation Area shall be subject to the non-conforming use provisions of this Ordinance and the Grandfathering provisions in Part 7, and may require growth allocation.

N. New Industrial Uses

1. New industrial uses shall not be permitted in Resource Conservation Areas.
2. New, expanded or redeveloped industrial facilities may only be permitted in Limited Development Areas (LDA) if permitted uses in the underlying zoning district and provided such facilities meet all requirements for development in the LDA.
3. New, expanded or redeveloped industrial or port-related facilities and the replacement of these facilities may be permitted only in those portions of Intensely Developed Areas that have been designated as Buffer Management Areas.

O. Non-maritime Heavy Industry

1. Non-maritime heavy industry may be permitted if:
  - a. The site is located in an Intensely Developed Area; and
  - b. The activity or facility has demonstrated to all appropriate local and State permitting agencies that there will be a net improvement in water quality to the adjacent body of water.

P. Utility Transmission Facilities

1. Utility transmission facilities, except those necessary to serve permitted uses, or where regional or interstate facilities must cross tidal waters, may be permitted in the Critical Area provided:
  - a. The facilities are located in Intensely Developed Areas; and

- b. Only after the activity or facility has demonstrated to all appropriate local and State permitting agencies that there will be a net improvement in water quality to the adjacent body of water.
  - 2. These provisions do not include power plants.
- Q. Sanitary Landfill; Rubble Fill
  - 1. Sanitary landfill; rubble fills may not be permitted in the Critical Area unless no environmentally acceptable alternative exists outside the Critical Area, and these development activities or facilities are needed in order to correct an existing water quality or wastewater management problem.
  - 2. Existing, permitted facilities shall be subject to the standards and requirements of the Department of the Environment.
- R. Solid or Hazardous Waste Collection or Disposal Facilities
  - 1. Solid or hazardous waste collection or disposal facilities, including transfer stations may not be permitted in the Critical Area unless no environmentally acceptable alternative exists outside the Critical Area, and these development activities or facilities are needed in order to correct an existing water quality wastewater management problem.
  - 2. Existing, permitted facilities shall be subject to the standards and requirements of the Department of the Environment.
- S. Sludge Facilities
  - 1. Permanent sludge handling, storage and disposal facilities, other than those associated with wastewater treatment facilities may be permitted in the Critical Area provided:
    - a. The facility or activity is located in an Intensely Developed Area; and
    - b. Only after the activity or facility has demonstrated to all appropriate local and State permitting agencies that there will be a net improvement in water quality to the adjacent body of water.
  - 2. Agricultural or horticultural use of sludge under appropriate approvals when applied by an approved method at approved application rates may be permitted in the Critical Area, except in the one hundred foot buffer.
- T. Golf course
  - 1. A golf course, excluding main buildings and/or structures such as the clubhouse, pro-shop, parking lot, etc., may be permitted in Resource Conservation Areas provided:
    - a. Such use is permitted in the underlying zone; and
    - b. Development is in accordance with the official guidance adopted by the Critical Area Commission on August 3, 2005, as may be amended from time to time.
- U. Construction on Piers
  - 1. Except as provided in paragraphs (2) and (3) of this subsection and notwithstanding any other provisions of law, the Town Of North Beach may not issue a building permit or any other approval to authorize a non-water dependent project located on State or private wetlands within the Critical Area.
  - 2. The Town of North Beach may issue a building permit or any other approval to authorize a non-water dependent project located on State or private wetlands within the Critical Area if the project:

- a. Involves a commercial activity that is permitted as a secondary or accessory use to a permitted primary commercial use;
  - b. Is not located on a pier that is attached to residentially, institutionally, or individually used property;
  - c. Is located in:
    - I. An Intensely Developed Area (IDA) and the project is authorized under a program amendment to the Town of North Beach's Critical Area Program approved on or after July 1, 2013, if the approved program amendment includes necessary changes to the Town of North Beach's zoning, subdivision and other ordinances so as to be consistent with or more restrictive than the requirements required under this paragraph; or
    - II. An area that has been excluded from a local Critical Area program if the exclusion has been adopted or approved by the Critical Area Commission for the Chesapeake and Atlantic Coastal Bays;
  - d. Is approved by the North Beach Planning Commission and the North Beach Board of Appeals after the Town of North Beach program amendment under paragraph c.I above, if applicable, has been approved;
  - e. Allows or enhances public access to State wetlands;
  - f. Does not expand beyond the length, width, or channel-ward encroachment of the pier on which the project is constructed;
  - g. Has a height of up to 18 feet unless the project is located at a marina; and
  - h. Is up to 1,000 square feet in total area; or
    - i. Is located on a pier that was in existence on or before December 31, 2012;
    - ii. Satisfies all of the requirements under subsections a-g of this paragraph 2; and
    - iii. If applicable, has a temporary or permanent roof structure or covering that is up to 1,000 square feet in total area.
3. The Town of North Beach may issue a building permit or other approval to authorize a non-water dependent project for a small scale renewable energy system on a pier located on State or private wetlands within the Critical Area if the project:
- a. Involves the installation or placement of a small-scale renewable energy system that is permitted as a secondary or accessory use on a pier that is authorized under Title 16 of the Environment Article;
  - b. Is located in:
    - I. The Chesapeake and Atlantic Coastal Bays Critical Area and the project is authorized under a program amendment to the Town's Critical Area Program approved on or after July 1, 2013, if the approved program amendment includes necessary changes to the Town of North Beach zoning, subdivision, and other ordinances so as to be consistent with or more restrictive than the requirements provided under this paragraph; or
    - II. An area that has been excluded from the Town of North Beach Critical Area Program that has been adopted or approved by the Critical Area Commission for the Chesapeake and Atlantic Coastal Bays;
  - c. Is approved by the Town's Planning Commission after the Town's amendment in accordance with Subparagraph 3.b.i above, if applicable, has been approved;
  - d. A building permit or other approval issued under subparagraph (a) of this paragraph may include the installation or placement of:
    - i. A solar energy system attached to a pier of the device or equipment associated with that system does not extend more than:

1. 4 feet above or 18 inches below the deck of the pier; or
2. 1 foot beyond the length or width of the pier;
- ii. A solar energy system attached to a piling if there is only one solar panel per boat slip;
- iii. A solar energy system attached to a boathouse roof if the device or equipment associated with that system does not extend beyond the length, width, or height of the boathouse roof;
- iv. A closed-loop geothermal heat exchanger under a pier if the geothermal heat exchanger or any associated devices or equipment do not:
  1. Extend beyond the length, width, or channel-ward encroachment of the pier;
  2. Deleteriously alter long- shore drift; or
  3. Cause significant individual or cumulative thermal impacts to aquatic resources;
- v. A wind energy system attached to a pier if there is only one wind energy system per pier for which:
  1. The height from the deck of the pier to the blade extended at its highest point is up to 12 feet;
  2. The rotor diameter of the wind turbine is up to 4 feet; and
  3. The setbacks of the wind energy system from the nearest property line and from the channelward edge of the pier to which that system is attached are at least 1.5 times the total height of the system from its base to the blade extended at its highest point.

## **Part 6: GROWTH ALLOCATION**

### **A. Growth Allocation Acreage**

1. Growth allocation available to the Town of North Beach includes:
  - a. An area equal to five percent (5%) of the RCA acreage located within the Town of North Beach; and
  - b. Growth allocation available to the Town of North Beach as provided for by Calvert County.
2. The Town of North Beach's original growth allocation acreage is 20 acres. The Town of North Beach's current growth allocation acreage remaining is 20 acres, as of December 14, 2017.
3. A local jurisdiction shall deduct acreage from its growth allocation reserves in accordance with COMAR 27.01.02.06-4.

### **B. Purpose. Growth Allocation is available for use in a Resource Conservation Area (RCA) or in a Limited Development Area (LDA) in the Town of North Beach Critical Area Overlay District. The purpose is to authorize a change in the Critical Area classification to develop at a higher density or use than the current classification allows.**

### **C. Process. An applicant shall submit to Town of North Beach a complete application for growth allocation that complies with the submittal and environmental report requirements of COMAR 27.01.02.06-1—.06-2. A Growth Allocation request shall be approved by the North Beach Planning Commission prior to submission to the Commission.**

### **D. Growth Allocation Floating Zone District GA**

1. The Growth Allocation Floating Zone is not mapped but is designated for use in areas classified as Resource Conservation Areas (RCA) and/or Limited Development Area (LDA) within the Town of North Beach Critical Area Overlay District. The purpose of the floating zone is to permit a change in the land management classification established in the Critical Area Overlay District on specific sites so that they may be developed to the extent permitted by the underlying zoning classification or the land use management classification. Only projects which have been approved by the Mayor and Council of the Town of North Beach for award of the Critical Area Growth Allocation are eligible for floating zones.
2. Designation of Floating Zones
  - a. The Growth Allocation District GA shall be a floating zone.
  - b. The Growth Allocation District GA provides for changing the land management classification of Resource Conservation Areas (RCA's) and Limited Development Areas (LDA's) in the Critical Area Overlay District.

E. Requirements

1. When locating new Intensely Developed or Limited Development Areas, the following requirements apply:
  - a. A new Intensely Developed Area shall be at least 20 acres.<sup>1</sup>
  - b. No more than one-half of the Town of North Beach's growth allocation may be located in Resource Conservation Areas (RCAs) except as provided in Subsection (c) below.
  - c. If the Town of North Beach is unable to utilize a portion of its growth allocation as set out in Subsection b above, then that portion of the growth allocation which cannot be so located may be located in the Resource Conservation Areas if the following standards apply:

Consistency with the Town of North Beach's adopted comprehensive plan and whether the growth allocation would implement the goals and objectives of the adopted plan. "Consistency with" means that a standard or factor will further, and not be contrary to, the following items in the comprehensive plan:

- a. Policies;
- b. Timing of the implementation of the plan, of development, and of rezoning;
- c. Development patterns;
- d. Land uses; and
- e. Densities or intensities.

F. Standards.

When locating new Intensely Developed or Limited Development Areas, the following standards shall apply:

1. A new Intensely Developed Area shall only be located in a Limited Development Area or adjacent to an existing Intensely Developed Area;
2. A new Limited Development Area shall only be located adjacent to an existing Limited Development Area or an Intensely Developed Area;

---

<sup>1</sup> A new IDA may be less than 20 acres if, as part of a local program, the Commission has approved an alternative standard for designation of an IDA; and the area is part of a growth allocation approved by the Commission. Examples include provisions that allow for grandfathered industrial or commercial uses located on a parcel that is less than 20 acres.

3. A new Limited Development Area or Intensely Developed Area shall be located in a manner that minimizes impacts to Habitat Protection Areas as defined herein and in COMAR 27.01.09, and in an area and manner that optimizes benefits to water quality;
4. A new Intensely Developed Area shall only be located where they minimize their impacts to the defined land uses of the Resource Conservation Area;
5. A new Intensely Developed Area or a Limited Development Area in a Resource Conservation Area shall be located at least three hundred feet(300') beyond the landward edge of tidal wetlands or tidal waters;
6. New Intensely Developed or Limited Development Areas to be located in Resource Conservation Areas shall conform to all criteria of the Town of North Beach for such areas, shall be so designated on the Town of North Beach Critical Area Maps and shall constitute an amendment to this Ordinance subject to the review and approval by the Mayor and Council of the Town of North Beach, and the Critical Area Commission as provided herein.

G. Additional Factors

In reviewing map amendments or refinements involving the use of growth allocation, the Town of North Beach shall consider the following factors:

1. Consistency with the Town of North Beach's adopted comprehensive plan and whether the growth allocation would implement the goals and objectives of the adopted plan.  
"Consistency with" means that a standard or factor will further, and not be contrary to the following items in the comprehensive plan:
  - a. Policies;
  - b. Timing of the implementation of the plan, of development, and of rezoning;
  - c. Development patterns;
  - d. Land uses; and
  - e. Densities or intensities.
2. For a map amendment or refinement involving a new Limited Development Area, whether the development is:
  - a. To be served by a public wastewater system or septic system that uses the best available nitrogen removal technology;
  - b. A completion of an existing subdivision;
  - c. An expansion of an existing business; or
  - d. To be clustered.
3. For a map amendment or refinement involving a new Intensely Developed Area, whether the development is:
  - a. To be served by a public wastewater system;
  - b. If greater than twenty acres, to be located in a designated Priority Funding Area; and
  - c. To have a demonstrable economic benefit.
4. The use of existing public infrastructure, where practical;
5. Consistency with State and regional environmental protection policies concerning the protection of threatened and endangered species in need of conservation that may be located on- or off-site.
6. Impacts on a priority preservation area;
7. Environmental impacts associated with wastewater and storm water management practices and wastewater and storm water discharges to tidal waters, tidal wetlands, and tributary streams; and

8. Environmental impacts associated with location in a coastal hazard area or an increased risk of severe flooding attributable to the proposed development.

## **Part 7: GRANDFATHERING**

### **A. Continuation of Existing Uses**

1. The continuation, but not necessarily the intensification or expansion, of any use in existence on October 1985 may be permitted, unless the use has been abandoned for more than one year or is otherwise restricted by existing Town ordinances.
2. If any existing use does not conform with the provisions of this Article, its intensification or expansion may be permitted only in accordance with the variance procedures in Part 8.

### **B. Residential Density on Grandfathered Lots**

1. Except as otherwise provided, the following types of land are permitted to be developed with a single-family dwelling, if a dwelling is not already in place there, notwithstanding that such development may be inconsistent with the density provisions of this Ordinance.
  - a. A legal parcel of land, not being part of a recorded or approved subdivision, that was recorded as of December 1, 1985;
  - b. Land that received a building permit subsequent to December 1, 1985, but prior to October 1985.
  - c. Land that was subdivided into recorded, legally buildable lots, where the subdivision received final approval between June 1, 1984 and December 1, 1985;
  - d. Land that was subdivided into recorded, legally buildable lots, where the subdivision received final approval after December 1, 1985 and provided that either development of any such land conforms to the IDA, LDA or RCA requirements in this Article or the area of the land has been counted against the growth allocation permitted under this Article.

### **C. Consistency**

Nothing in this Section may be interpreted as altering any requirements of this Article related to water-dependent facilities or Habitat Protection Areas.

## **Part 8: VARIANCES**

- A. Applicability. The Town of North Beach has established provisions where, owing to special features of a site or other circumstances, implementation of this Article or a literal enforcement of provisions within this Article would result in unwarranted hardship to an applicant, a Critical Area variance may be obtained.
  1. In considering an application for a variance, the Town of North Beach Board of Appeals shall presume that the specific development activity in the Critical Area that is subject of the application and for which a variance is required, does not conform with the general purpose and intent of Natural Resources Article, Title 8, Subtitle 18, COMAR Title 27, and the requirements of this Ordinance.
  2. Unwarranted hardship means that without a variance, an applicant would be denied reasonable and significant use of the entire parcel or lot for which the variance is requested.
- B. Standards. The provisions for granting such a variance shall include evidence submitted by the applicant that the following standards are met:

1. Special conditions or circumstances exist that are peculiar to the land or structure involved and that a literal enforcement of provisions and requirements of this Article would result in unwarranted hardship;
  2. A literal interpretation of the provisions of this Article will deprive the applicant the use of land or a structure permitted to others in accordance with the provisions of this Critical Area ordinance;
  3. The granting of a variance will not confer upon an applicant any special privilege that would be denied by this Article to other lands or structures within the Critical Area;
  4. The variance request is not based upon conditions or circumstances which are the result of actions by the applicant, including the commencement of development activity before an application for a variance has been filed, nor does the request arise from any condition relating to land or building use, either permitted or non-conforming on any neighboring property; and
  5. The granting of a variance shall not adversely affect water quality or adversely impact fish, wildlife or plant habitat within the Critical Area and the granting of the variance will be in harmony with the general spirit and intent of the State Critical Area Law and this Article.
- C. Process. Applications for a variance will be made in writing to the Town of North Beach Board of Appeals with a copy provided to the Critical Area Commission. The Town of North Beach shall follow its established procedures for advertising and notification of affected landowners.
1. After hearing an application for a Critical Area Program variance, the Board of Appeals shall make written findings reflecting analysis of each standard.
  2. If the variance request is based on conditions or circumstances that are the result of actions by the applicant, the Town of North Beach shall consider that fact.
  3. The applicant has the burden-of-proof and the burden-of-persuasion to overcome the presumption of non-conformance established in Paragraph A of this Part.
  4. The Town of North Beach shall notify the Critical Area Commission of its findings and decision to grant or deny the variance request.
- D. Findings.
- Based on competent and substantial evidence, the Town of North Beach Board of Appeals shall make written findings as to whether the applicant has overcome the presumption of non-conformance as established in Paragraph A of this Part, and, if applicable, Paragraph B of this Part. With due regard for the person's technical competence, and specialized knowledge, the written finding may be based on evidence introduced and testimony presented by:
1. The applicant;
  2. The Town of North Beach or any other government agency; or
  3. Any other person deemed appropriate by the Town of North Beach.
- E. Appeals
- Appeals from decisions concerning the granting or denial of a variance under these regulations shall be taken in accordance with all applicable laws and procedures of the Town of North Beach Zoning Ordinance for variances. Variance decisions by the Board of Appeals may be appealed to the Circuit Court in accordance with the Maryland Rules of Procedure. Appeals may be taken by any person, firm, corporation or governmental agency aggrieved or adversely affected by any decision made under this Article.
- F. Conditions and Mitigation

The Board of Appeals shall impose conditions on the use or development of a property which is granted a variance as it may find reasonable to ensure that the spirit and intent of this Article is maintained, including but not limited to the following:

1. Adverse impacts resulting from the granting of the variance shall be mitigated as recommended by the Planning Commission, but not less than by planting on the site per square foot of the variance granted at no less than a three-to-one basis.
2. New or expanded structures or lot coverage shall be located the greatest possible distance from mean high water, the landward edge of tidal wetlands, tributary streams, non-tidal wetlands, or steep slopes.

G. Commission Notification

Within ten working days after a written decision regarding a variance application is issued, a copy of the decision will be sent to the Critical Area Commission. The Town of North Beach may not issue a permit for the activity that was the subject of the application until the applicable 30-day appeal period has lapsed.

## **Part 9: Lot Consolidation and Reconfiguration**

A. Applicability

The provisions of this Part apply to a consolidation or a reconfiguration of any non-conforming legal grandfathered parcel or lot. These provisions do not apply to the reconfiguration or consolidation of parcels or lots which are conforming or meet all Critical Area requirements. Non-conforming parcels or lots include:

1. Those for which a Critical Area variance is sought or has been issued; and
2. Those located in the Resource Conservation Area and are less than twenty acres in size.

B. Procedure

An applicant seeking a parcel or lot consolidation or reconfiguration shall provide the information required in COMAR 27.01.02.08.E to the Town of North Beach:

1. The Town of North Beach may not approve a proposed parcel or lot consolidation or reconfiguration without making written findings in accordance with COMAR 27.01.02.08.F.
2. The Town of North Beach shall issue a final written decision or order granting or denying an application for a consolidation or reconfiguration.
  - a. After a final written decision or order is issued, the Town of North Beach shall send a copy of the decision or order and a copy of any approved development plan within ten business day by U.S. mail to the Commission's business address.

## **Part 10: AMENDMENTS**

A. Amendments

The Mayor and Council of the Town of North Beach may from time-to-time amend the Critical Area provisions of this Article. Changes may include, but are not limited to, amendments, revisions, and modifications to these zoning regulations, Critical Area Maps, implementation procedures, and local policies that affect the Town of North Beach's Critical Area. All such amendments, revisions, and modifications shall also be approved by the Critical Area Commission as established in §8-1809 of the Natural Resources Article of the Annotated Code of Maryland. No such amendment shall be implemented without approval of the Critical Area

Commission. Standards and procedures for Critical Area Commission approval of proposed amendments are as set forth in the Critical Area Law §8-1809(i) and §8-1809(d), respectively.

**B. Zoning Map Amendments**

Except for program amendments or program refinements developed during a six-year comprehensive review, a zoning map amendment may only be granted by the Mayor and Council of the Town of North Beach upon proof of a mistake in the existing zoning. This requirement does not apply to proposed changes to a zoning map that meet the following criteria:

1. Are wholly consistent with the land classifications as shown on the adopted Critical Area Overlay Map; or
2. The use of growth allocation in accordance with the growth allocation provisions of this Article is proposed.

**C. Process**

1. When an amendment is requested, the applicant shall submit the amendment to the Planning Commission for review and research. Upon completing Findings of Fact, these documents shall be forwarded to the Mayor and Council of the Town of North Beach.
2. The Major and Council of the Town of North Beach shall hold a public hearing at which parties of interest and citizens shall have an opportunity to be heard. At least fourteen (14) days' notice of the time and place of such hearing shall be published in a newspaper of general circulation in the Town of North Beach.
3. After the Mayor and Council of the Town of North Beach approves an amendment, they shall forward their decision and applicable resolutions along with the amendment request to the Critical Area Commission for final approval.

**Part 11: ENFORCEMENT**

**A. Consistency**

The Critical Area provisions of this Article, in accordance with the Critical Area Act and Criteria supersede any inconsistent law, Chapter or plan of the Town of North Beach. In the case of conflicting provisions, the stricter provisions shall apply.

**B. Violations**

1. No person shall violate any provision of this Article of the Town Zoning Ordinance. Each violation that occurs and each calendar day that a violation continues shall be a separate offense.
2. Each person who violates a provision of this Article shall be subject to separate administrative civil penalties, abatement or restoration orders, and mitigation for each offense.
3. Non-compliance with any permit or order issued by the Town of North Beach related to the Critical Area shall be a violation of this Article and shall be enforced as provided herein.

**C. Responsible Persons**

The following persons may each be held jointly or severally responsible for a violation:

1. Persons who apply for or obtain any permit or approval;
2. Contractors;
3. Subcontractors;
4. Property owners;
5. Managing agents; or

6. Any person who has committed, assisted, or participated in the violation.

D. Required Enforcement Action

In the case of violations of this Ordinance, the Town of North Beach shall take enforcement action including:

1. Assess administrative civil penalties as necessary to cover the costs associated with performing inspections, supervising or rendering assistance with identifying and citing the violation, issue abatement and restoration orders, and reviewing mitigation plans and ensuring compliance with these plans;
2. Issue abatement, restoration, and mitigation orders as necessary to:
  - a. Stop unauthorized activity;
  - b. Restore and stabilize the site, as appropriate, to its condition prior to the violation or to a condition that provides the same water quality and habitat benefits; and
3. Require the implementation of mitigation measures, in addition to restoration activities, to offset the environmental damage and degradation or loss of environmental benefit resulting from the violation.

E. Right to Enter Property

Except as otherwise authorized and in accordance with the procedures specified herein, the Mayor and Council of the Town of North Beach or their designee may obtain access to and enter a property in order to identify or verify a suspected violation, restrain a development activity, or issue a citation if the Town of North Beach has probable cause to believe that a violation of this Article has occurred, is occurring, or will occur. The Town of North Beach shall make a reasonable effort to contact a property owner before obtaining access to or entering the property. If entry is denied, The Town of North Beach may seek an injunction to enter the property to pursue an enforcement action.

F. Administrative Civil Penalties

In addition to any other penalty applicable under State or the Town of North Beach law, every violation of a provision of Natural Resources Article, Title 8, Subtitle 18, or the Critical Area provisions of this Article shall be punishable by a civil penalty of up to \$10,000 per calendar day.

1. Before imposing any civil penalty, the person(s) believe to have violated this Article shall receive: written notice of the alleged violation(s) including which, if any, are continuing violations, and an opportunity to be heard. The amount of the civil penalty for each violation, including each continuing violation, shall be determined separately. For each continuing violation, the amount of the civil penalty shall be determined per day. In determining the amount of the civil penalty, the Town of North Beach shall consider:
  - a. The gravity of the violation;
  - b. The presence or absence of good faith of the violator;
  - c. Any willfulness or negligence involved in the violation including a history of prior violations;
  - d. The environmental impact of the violation; and
  - e. The cost of restoration of the resource affected by the violation and mitigation for damage to that resource, including the cost to the Town of North Beach for performing, supervising, or rendering assistance to the restoration and mitigation.
2. Administrative civil penalties for continuing violations shall accrue for each violation, every day each violation continues, with no requirements for additional assessments, notice or hearings for each separate offense. The total amount payable for continuing violations shall

be the amount assessed per day for each violation multiplied by the number of days that each violation has continued.

3. The person responsible for any continuing violation shall promptly provide the Town of North Beach with written notice of the date(s) the violation has been or will be brought into compliance and the date(s) for the Town of North Beach inspection to verify compliance. Administrative civil penalties for continuing violations continue to accrue as set forth herein until the Town of North Beach receives such written notice and verifies compliance by inspection or otherwise.
4. Assessment and payment of administrative civil penalties shall be in addition to and not in substitution for recovery by the Town of North Beach of all damages, cost, and other expenses caused by the violation.
5. Payment of all administrative civil penalties assessed shall be a condition precedent to the issuance of any permit or other approval required by this Article.

G. Cumulative Remedies

The remedies available to the Town of North Beach under this Article are cumulative and not alternative or exclusive, and the decision to pursue one remedy does not preclude pursuit of others.

H. Injunctive Relief

The Town of North Beach is authorized to institute injunctive or other appropriate actions or proceedings to bring about the discontinuance of any violation of this Article, an administrative order, a permit, a decision, or other imposed condition.

1. The pendency of an appeal to the North Beach Board of Appeals or subsequent judicial review shall not prevent the Town of North Beach from seeking injunctive relief to enforce an administrative order, permit, decisions, or other imposed condition, or to restrain a violation pending the outcome of the appeal or judicial review.

I. Variances Pursuant to a Violation

The Town of North Beach may accept an application for a variance regarding a parcel or lot that is subject to a current violation of this Article or any provisions of an order, permit or plan in accordance with the variance provisions of this Article. However, the application shall not be reviewed, nor shall a final decision be made until all abatement, restoration, and mitigation measures have been implemented and inspected by the Town of North Beach.

J. Permits Pursuant to a Violation

The Town of North Beach may not issue any permit, approval, variance, or special exception, unless the person seeking the permit has:

1. Fully paid all administrative, civil, or criminal penalties as set forth in Section F of this Part;
2. Prepared a restoration or mitigation plan, approved by the Town of North Beach, to abate impacts to water quality or natural resources as a result of the violation;
3. Performed the abatement measures in the approved plan in accordance with the Town of North Beach regulations; and
4. Unless an extension of time is approved by the Town of North Beach because of adverse planting conditions, within ninety (90) days of the issuance of a permit, approval, variance, or special exception for the affected property, any additional mitigation required as a

condition of approval for the permit, approval, variance, or special exception shall be completed.

**K. Appeals**

An appeal to the Town of North Beach Board of Appeals may be filed by any person aggrieved by any order, requirement, decision or determination by the Town of North Beach in connection with the administration and enforcement of this Article.

1. An appeal is taken by filing a written notice of appeal with the Board of Appeals in accordance with the provisions in the Town of North Beach Zoning Ordinance and accompanied by the appropriate filing fee.
2. An appeal must be filed within thirty (30) days after the date of the decision or order being appealed; and
3. An appeal stays all actions by the Town of North Beach seeking enforcement or compliance with the order or decisions being appealed, unless the Town of North Beach certifies to the Board of Appeals that (because of facts stated in the certificate) such stay will cause imminent peril to the life or property. In such a case, action by the Town of North Beach shall not be stayed except by order of the Board of Appeals or a court up on application of the party seeking the stay.

**Part 12: THE BUFFER**

**A. Applicability and Delineation**

An applicant for a development activity or a change in land use shall comply with all of the required standards as described below. The Buffer shall be delineated in the field and shall be shown on all applications as follows:

1. A Buffer of at least 100 feet is delineated, and expanded as described in subsection A(3) below, based on existing field conditions landward from:
  - a. The mean high water line of a tidal water;
  - b. The edge of each bank of a tributary stream; and
  - c. The upland boundary of a tidal wetland.
2. Applications for a subdivision or development activity on land located within the RCA requiring site plan approval after July 1, 2008 shall include a minimum Buffer of at least 200 feet from a tidal waterway or tidal wetlands. In the following instances, the 200 foot Buffer does not apply and the Buffer shall be delineated in accordance with subsections A(1) and A(3):
  - a. The application for subdivision or site plan approval was submitted before July 1, 2008, and legally recorded (subdivisions) or received approval (site plans), by July 1, 2010; or
  - b. The application involves the use of growth allocation.
3. The Buffer shall be expanded beyond 100 feet as described in subsection A(1) above and beyond 200 feet as described in subsection A(2) above, to include the following contiguous land features:
  - a. A steep slope at a rate of four feet for every one percent of slope or the entire steep slope to the top of the slope, whichever is greater;
  - b. A non-tidal wetland to the upland boundary of the non-tidal wetland;
  - c. The 100-foot Buffer that is associated with a Non-tidal Wetland of Special State Concern as stated in COMAR §26.23.06.01;
  - d. For an area of hydric soils or highly erodible soils, the lesser of:

- I. The landward edge of the hydric or highly erodible soils; or
- II. Three hundred feet (300') where the expansion area includes the minimum 100-foot Buffer.

**B. Development Activities In the Buffer**

If approved by the Town of North Beach, disturbance to the Buffer is permitted for the following activities, provided mitigation is performed in accordance with Section D of this Part and an approved Buffer Management Plan is submitted as required per Section F of this Part:

1. A new development or redevelopment activity associated with a water-dependent facility or;
2. A shore erosion control activity constructed in accordance with COMAR 26.24.02, COMAR 26.04.04, and this Article;
3. A development or redevelopment activity approved in accordance with the variance provisions of this Article;
4. A new development or redevelopment activity on a lot or parcel that was created before January 1, 2010 where:
  - a. The Buffer is expanded for highly erodible soil on a slope less than fifteen percent or is expanded for a hydric soil and the expanded Buffer occupies at least seventy-five percent (75%) of the lot or parcel;
  - b. The development or redevelopment is located in the expanded portion of the Buffer and not within the 100-foot Buffer; and
  - c. Mitigation occurs at a 2:1 ratio based on the lot coverage of the proposed development activity that is in the expanded Buffer.

**C. Buffer Establishment**

1. The requirements of this regulation are applicable to:
  - a. A development or redevelopment activity that occurs on a lot or parcel that includes a buffer to tidal waters, a tidal wetland, or a tributary stream if that development or redevelopment activity is located outside the buffer; and
  - b. The approval of a subdivision that includes a buffer to tidal waters, a tidal wetland, or a tributary stream.
2. If an applicant for a subdivision of a lot uses or leases the lot for an agricultural purpose, the applicant:
  - a. In accordance with local land recordation requirements, shall record an approved buffer management plan under Part F of this Article; and
  - b. If authorized by the Town of North Beach, may delay implementation of the buffer management plan until the use of the lot is converted to a nonagricultural purpose.
3. The requirements of this regulation are not applicable to an in-kind replacement of a structure.
4. The Town of North Beach shall require an applicant to establish the buffer in vegetation in accordance with the table below and Part E of this Article X and to provide a buffer management plan under Part F of this Article when an applicant applies for:
  - a. Approval of a subdivision;
  - b. Conversion from one land use to another land use on a lot or a parcel; or
  - c. Development on a lot or a parcel created before January 1, 2010.
5. When the buffer is not fully forested or is not fully established in existing, naturally occurring woody or wetland vegetation, an applicant shall establish the buffer to the extent required in COMAR 27.01.09.01-1(C).

6. The Town of North Beach may authorize an applicant to deduct from the total establishment requirement an area of lot coverage removed from the buffer if:
    - a. The lot coverage existed before the date of local program adoption or was allowed by local procedures; and
    - b. The total area is stabilized.
- D. Mitigation for Impacts to the Buffer
- An applicant for a development activity that includes disturbance to the Buffer shall mitigate for impacts to the Buffer and shall provide a Buffer Management Plan in accordance with the standards set forth in this Part and any Town policies and procedures.
1. All authorized development activities shall be mitigated according to COMAR 27.01.09.01-2.
  2. All unauthorized development activities in the Buffer shall be mitigated at a ratio of 4:1 for the area of disturbance in the Buffer.
  3. Planting for mitigation shall be planted on-site within the Buffer. If mitigation planting cannot be located within the Buffer, then the Town of North Beach may permit planting in the following order of priority:
    - a. On-site and adjacent to the Buffer; and
    - b. On-site elsewhere in the Critical Area.
- E. Buffer Planting Standards
1. An applicant that is required to plant the Buffer for Buffer establishment or Buffer mitigation shall apply the planting standards set forth in COMAR 27.01.09.01-2 and 01-4.
  2. A variance to the planting and mitigation standards of this Article is not permitted.
- F. Required Submittal of Buffer Management Plans
- An applicant that is required to plant the Buffer to meet establishment requirements or mitigation requirements shall submit a Buffer Management Plan as provided by COMAR 27.01.09.01-3 with the application for the specific activity. The provisions of this part do not apply to maintaining an existing grass lawn or an existing garden in the Buffer.
1. Any permit for development activity that requires Buffer establishment or Buffer mitigation will not be issued until a Buffer Management Plan is approved by the Town of North Beach.
  2. An applicant may not obtain final approval of a subdivision application until the Buffer Management Plan has been reviewed and approved by the Town of North Beach.
  3. The Town of North Beach may not approve a Buffer Management Plan unless:
    - a. The plan clearly indicates that all planting standards under Subsection E above of this Part will be met; and
    - b. Appropriate measures are in place for the long-term protection and maintenance of all Buffer areas.
  4. For a Buffer Management Plan that is the result of an authorized disturbance to the Buffer, a permit authorizing final Use & Occupancy will not be issued until the applicant:
    - a. Completes the implementation of a Buffer Management Plan; or
    - b. Provides financial assurance to cover the costs for:
      - I. Materials and installation; and
      - II. If the mitigation or establishment requirement is at least 5,000 square feet, long-term survivability requirements as set forth in COMAR 27.01.09.01-2.
  5. Concurrent with recordation of a subdivision plat, an applicant shall record a protective easement for the Buffer.

6. If an applicant fails to implement a Buffer Management Plan, that failure shall constitute a violation of this Article.
    - a. A permit for development activity will not be issued for a property that has a violation.
  7. An applicant shall post a subdivision with durable signs prior to final recordation in accordance with COMAR 2.7.01.09.01-2.
  8. Buffer Management Plans that include natural regeneration shall follow the provisions of COMAR 27.01.09.01-4.
- G. Fees-In-Lieu of Buffer Mitigation
- A fee-in-lieu of mitigation will be collected if the planting requirement of the Buffer Management Plan cannot be fully met on-site in accordance with the following standards:
1. Fee-in-lieu monies shall be collected and held in a special fund, which may not revert to the Town of North Beach's general fund;
  2. Fee-in-lieu shall be assessed at \$1.50 per square foot of required Buffer mitigation;
  3. A portion of fee-in-lieu money can be used for management and administrative costs; however, this cannot exceed twenty percent of the fees collected; and
  4. Fee-in-lieu monies shall be used for the following projects:
    - a. To establish the Buffer on sites where planting is not a condition of development or redevelopment;
    - b. For water quality and habitat enhancement projects as approved by the Critical Area Commission or by agreement between the Town of North Beach and the Critical Area Commission.

### **Part 13: BUFFER MANAGEMENT AREA (BMA) PROVISIONS**

- A. Applicability
- The following provisions apply to areas designated and mapped by the Town of North Beach as Modified Buffer Areas (MBA) and shown on maps available to the public held by the Town of North Beach. All MBA maps and provisions must be approved by the Critical Area Commission.
- B. Development and Redevelopment Standards
- New development or redevelopment activities, including structures, roads, parking areas and other impervious surfaces or septic systems will not be permitted in the Buffer in a designated BMA unless the applicant can demonstrate that there is no feasible alternative and the Planning Commission finds that efforts have been made to minimize Buffer impacts and the development shall comply with the following standards:
1. Development and redevelopment activities have been located as far as possible from mean high tide, the landward edge of tidal wetlands, or the edge of tributary streams.
  2. Variances to other local setback requirements have been considered before additional intrusion into the Buffer.
  3. Commercial, industrial, institutional, recreational and multi-family residential development and redevelopment shall meet the following standards:
    - a. New development, including accessory structures, shall minimize the extent of intrusion into the Buffer. New development shall not be located closer to the water (or edge of tidal wetlands) than the minimum required setback for the zoning district or fifty feet, whichever is greater. Structures on adjacent properties shall not be used to determine the setback line.

- b. Redevelopment, including accessory structures, shall minimize the extent of intrusion into the Buffer. Redevelopment shall not be located closer to the water (or edge of tidal wetlands) than the local setback for the zoning district or twenty-five feet, whichever is greater. Structures on adjacent properties shall not be used to determine the setback line. A new structure may be constructed on the footprint of an existing structure.
- 4. Single-family residential development and redevelopment shall meet the following standards:
  - a. New development or redevelopment shall minimize the shoreward extent of intrusion into the Buffer. New development and redevelopment shall not be located closer to the water (or the edge of tidal wetlands) than principal structures on adjacent properties or the setback for the zoning district, whichever is greater. In no case shall new development or redevelopment be located less than fifty feet (50') from the water (or the edge of tidal wetlands).
  - b. Existing principal or accessory structures may be replaced in the same footprint.
  - c. New accessory structures may be located closer to the water than the setback if the Planning Commission has determined there are no other locations for the structures. The area of new accessory structures shall not exceed five-hundred square feet (500 s.f.) within fifty feet (50') of the water and one-thousand square feet (1,000 s.f.) total in the Buffer.
- 5. Variances to other setback requirements shall be considered before additional intrusion into the Buffer is permitted.
- 6. Development and redevelopment may not impact any Habitat Protection Area (HPA) other than the Buffer, including non-tidal wetlands, other State or federal permits notwithstanding.
- 7. Buffer Management Area (BMA) designation shall not be used to facilitate the filling of tidal wetlands that are contiguous to the Buffer or to create additional buildable land for new development or redevelopment.
- 8. No natural vegetation may be removed in the Buffer except that required by the proposed construction.
- 9. Mitigation for development or redevelopment in the BMA approved under the provisions of this subsection shall be implemented as follows:
  - a. Natural forest vegetation of an area twice the extent of the footprint of the development activity within the 100-foot Buffer shall be planted on-site in the Buffer or at another location approved by the Planning Commission.
  - b. Applicants who cannot fully comply with the planting requirement in subsection a. above, may use offset by removing an equivalent area of existing lot coverage in the Buffer.
  - c. Applicants who cannot comply with either the planting or offset requirements in subsections a or b above shall pay into a fee-in-lieu program as follows:
    - I. Applicants shall submit to the Planning Commission two costs estimates from qualified landscape businesses for planting the equivalent of twice the extent of the development within the 100-foot Buffer. The estimate shall include the cost of stock, planting, staking, mulching and a one year guarantee.
    - II. The Planning Commission shall determine the amount of the fee-in-lieu based on the average of the two estimates.
  - d. Any fees-in-lieu collected under these provisions shall be placed in an account that will assure their use only for projects within the Critical Area to enhance wildlife habitat, improve water quality, or otherwise promote the goals of the Town of North Beach's

Critical Area Program. The funds cannot be used to accomplish a project or measure that would have been required under existing local, State, or federal laws, regulations, statutes, or permits.

- e. Any required mitigation or offset areas shall be protected from future development through an easement, development agreement, plat notes or other instrument and recorded among the land records of Calvert County.

#### **Part 14: OTHER HABITAT PROTECTION AREAS**

##### **A. Identification**

An applicant for a development activity, redevelopment activity or change in land use shall identify all applicable Habitat Protection Areas and follow the standards contained in this Part.

Habitat Protection Areas include:

1. Threatened or endangered species or species in need of conservation;
2. Colonial water bird nesting sites;
3. Historic waterfowl staging and concentration areas in tidal waters, tributary streams or tidal and non-tidal wetlands;
4. Existing riparian forests;
5. Forest areas utilized as breeding areas by future interior dwelling birds or other wildlife species;
6. Other plant and wildlife habitats determined to be of local significance;
7. Natural Heritage Areas; and
8. Anadromous fish propagation waters.

##### **B. Standards**

1. An applicant for a development activity proposed for a site within the Critical Area that is in, or near a Habitat Protection Area listed above, shall request review by the Department of Natural Resources Wildlife and Heritage Service for comment and technical advice. Based on the Department's recommendations, additional research and site analysis may be required to identify the location of threatened and endangered species and species in need of conservation on a site.
2. If the presence of a Habitat Protection Area is confirmed by the Department of Natural Resources, the applicant shall develop a Habitat Protection Plan in coordination with the Department of Natural Resources.
  - a. If potential FIDS habitat is identified, the Habitat Protection Plan and proposed development shall conform to the Critical Area Commission's FIDS Guidance Manual, dated June 2000, as updated.
  - b. If potential anadromous fish propagation waters are identified, the Habitat Protection Plan and proposed development shall conform to the criteria listed in COMAR 27.01.09.05.
3. The applicant shall obtain approval of the Habitat Protection Plan from the Planning Commission or the appropriate designated approving authority. The specific protection and conservation measures included in the Plan shall be considered conditions of approval of the project.

#### **Part 15: ENVIRONMENTAL IMPACT ASSESSMENT (EIA)**

##### **A. Applicability**

The Town of North Beach may require an EIA for the following:

1. Development or redevelopment activities in the Critical Area requiring site plan approval;
2. Development or redevelopment activities in the Critical Area requiring subdivision approval;
3. Development or redevelopment activities within a Habitat Protection Area other than a detached single-family dwelling.
4. An application of Growth Allocation; or
5. An application of a Variance other than for detached single-family dwellings.

## **Part 16: Water Dependent Facilities.**

### **A. Applicability**

The provisions of this Article apply to those structures or works associated with industrial, maritime, recreational, educational, or fisheries activities that require location at or near the shoreline within the Buffer. An activity is water-dependent if it cannot exist outside the Buffer and is dependent on the water by reason of the intrinsic nature of its operation.

### **B. Identification**

Water dependent facilities include, but are not limited to, ports, the intake and outfall structures of power plants, water-use industries, marinas and other boat docking structures, public beaches and other public water-oriented recreation areas, and fisheries activities. Excluded from this regulation are individual private piers installed or maintained by riparian landowners, and which are not part of a subdivision that provides community piers.

### **C. Standards**

The following standards shall apply to new or expanded development activities associated with water-dependent facilities:

- (1) New or expanded development activities may be permitted in the Buffer in the Intensely Developed Areas and Limited Development Areas provided that it can be shown:
  - (a) That they are water-dependent;
  - (b) That the project meets a recognized private right or public need;
  - (c) That adverse effects on water quality, fish, plant and wildlife habitat are minimized;
  - (d) That, insofar as possible, non-water-dependent structures or operations associated with water-dependent projects or activities are located outside the buffer; and
  - (e) That the facilities are consistent with an approved plan as set forth below.
- (2) New or expanded development activities may not be permitted in those portions of the Buffer which occur in Resource Conservation Areas. Applicants for water-dependent facilities in a Resource Conservation Area, other than those specifically permitted

herein, must apply for a portion of the County's growth allocation as set forth in this ordinance.

D. Evaluating plans for new and expanded water-dependent facilities

The Town shall evaluate on a case-by-case basis all proposals for expansion of existing or new water-dependent facilities. The Town shall work with appropriate State and federal agencies to ensure compliance with applicable regulations. The following factors shall be considered when evaluating proposals for new or expanded water dependent facilities:

- (1) That the activities will not significantly alter existing water circulation patterns or salinity regimes;
- (2) That the water body upon which these activities are proposed has adequate flushing characteristics in the area;
- (3) That disturbance to wetlands, submerged aquatic plant beds, or other areas of important aquatic habitats will be minimized;
- (4) That adverse impacts to water quality that may occur as a result of these activities, such as non-point source run-off, sewage discharge from land activities or vessels, or from boat cleaning and maintenance operations, is minimized;
- (5) That shellfish beds will not be disturbed or be made subject to discharge that will render them unsuitable for harvesting;
- (6) That dredging shall be conducted in a manner, and using a method which causes the least disturbance to water quality and aquatic and terrestrial habitats in the area immediately surrounding the dredging operation or within the critical area, generally;
- (7) That dredged spoil will not be placed within the Buffer or elsewhere in that portion of the Critical Area which has been designated as a Habitat Protection Area except as necessary for:
  - (a) Backfill for permitted shore erosion protection measures;
  - (b) Use in approved vegetated shore erosion projects;
  - (c) Placement on previously approved channel maintenance spoil disposal areas;  
and
  - (d) Beach nourishment.
- (8) That interference with the natural transport of sand will be minimized; and
- (9) That disturbance will be avoided to historic areas of waterfowl staging and concentration or other Habitat Protection Areas identified in the Habitat Protection Area Chapters of this ordinance.

**H. Industrial and port-related facilities.** New, expanded, or redeveloped industrial or port-related facilities and the replacement of these facilities may be permitted only in those portions of Intensely Developed Areas that have been designated as Modified Buffer Areas as described in this Article and are subject to the provisions set forth in this Article.

**I. Marinas and other commercial maritime facilities.** New, expanded or redeveloped marinas may be permitted in the Buffer within Intensely Developed Areas and Limited Development Areas subject to the requirements set forth in this Chapter. New marinas or related maritime facilities may not be permitted in the Buffer within Resource Conservation Areas except as provided in this Article. Expansion of existing marinas may be permitted by the Town within Resource Conservation Areas provided that it is sufficiently demonstrated that the expansion will not adversely affect water quality, and that it will result in an overall net improvement in water quality at or leaving the site of the marina. New and existing marinas shall meet the sanitary requirements of the Department of the Environment as required in COMAR 26.04.02. New marinas shall establish a means of minimizing the discharge of bottom wash waters into tidal waters.

**J. Community piers.** New or expanded community marinas and other non-commercial boat-docking and storage facilities may be permitted in the Buffer subject to the requirements in this Article of the Zoning Ordinance provided that:

- (1) These facilities may not offer food, fuel, or other goods and services for sale and shall provide adequate and clean sanitary facilities;
- (2) The facilities are community-owned and established and operated for the benefit of the residents of a platted and recorded riparian subdivision;
- (3) The facilities are associated with a residential development approved by the Town for the Critical Area and consistent with all State requirements and program requirements for the Critical Area;
- (4) Disturbance to the Buffer is the minimum necessary to provide a single point of access to the facilities; and
- (5) If community piers, slips, or moorings are provided as part of the new development, private piers in the development are not allowed.

**K. Number of slips or piers permitted.** The number of slips or piers permitted at the facility shall be the lesser of (1) or (2) below:

- (1) One slip for each 50 feet of shoreline in the subdivision in the Intensely Developed and Limited Development Areas and one slip for each 300 feet of shoreline in the subdivision in the Resource Conservation Area; or
- (2) A density of slips or piers to platted lots or dwellings within the subdivision in the Critical Area according to the following schedule:

**Table K(2)      Number of Slips Permitted**

Platted Lots or Dwellings in the Critical Area	Slips
up to 15	1 for each lot
16 – 40	15 or 75% whichever is greater
41 – 100	30 or 50% whichever is greater
101 - 300	50 or 25% whichever is greater
over 300	75 or 15% whichever is greater

**L.      Public beaches and other public recreation or education areas.** Public beaches or other public water-oriented recreation or education areas including, but not limited to, publicly owned boat launching and docking facilities and fishing piers may be permitted in the Buffer in Intensely Developed Areas. These facilities may be permitted within the Buffer in Limited Development Areas and Resource Conservation Areas provided that:

- (1) Adequate sanitary facilities exist;
- (2) Service facilities are, to the extent possible, located outside the Buffer;
- (3) Permeable surfaces are used to the extent practicable, if no degradation of groundwater would result;
- (4) Disturbance to natural vegetation is minimized; and
- (5) Areas for possible recreation, such as nature study, and hunting and trapping, and for education, may be permitted in the Buffer within Resource Conservation Areas if service facilities for these uses are located outside of the Buffer.

**M.      Research areas.** Water-dependent research facilities or activities operated by State, Federal, or local agencies or educational institutions may be permitted in the Buffer, if non-water-dependent structures or facilities associated with these project are, to the extent possible, located outside of the Buffer.

**N.      Fisheries activities.** Lands and water areas with high aquacultural potential will be identified by the **TOWN** in cooperation with the State when applications for new or expanded fisheries or aquaculture facilities in these areas are submitted to the **TOWN**. These areas are encouraged for that use and if so used, should be protected from degradation by other types of land and water use or by adjacent land and water uses. Commercial water-dependent fisheries including, but not limited to structures for crab shedding, fish off-loading docks, shellfish culture

operations and shore-based facilities necessary for aquaculture operations and fisheries activities may be permitted in the Buffer in Intensely Developed Areas, Limited Development Areas and Resource Conservation Areas.

## **Part 17: DEFINITIONS**

The following definitions shall be used in the interpretation and administration of this Article and this Chapter with respect to the use of the following terms. The singular shall always include the plural, and vice versa, except where such construction would be unreasonable:

- (1) "Abatement" means the act of putting an end to a land alteration or development activity or reducing the degree or intensity of the alteration or activity.
- (2) "Accessory structure" means a structure that is detached from the principal structure, located on the same lot and customarily incidental and subordinate to a principal structure.
- (3) "Addition" means construction that increases the size of a structure.
- (4) "Afforestation" means the establishment of a tree crop on an area from which it has always or very long been absent, or the planting of open areas which are not presently in forest cover.
- (5) "Agriculture" means all methods of production and management of livestock, crops, vegetation, and soil. This includes, but is not limited to, the related activities of tillage, fertilization, pest control, harvesting, and marketing. It also includes, but is not limited to, the activities of feeding, housing, and maintaining of animals such as cattle, dairy cows, sheep, goats, hogs, horses, and poultry and handling their by-products.
- (6) "Agricultural easement" means a non-possessory interest in land which restricts the conversion of use of the land, preventing non-agricultural uses.
- (7) "Anadromous fish" means fish that travel upstream (from their primary habitat in the ocean) to freshwater in order to spawn.
- (8) "Anadromous fish propagation waters" means those streams that are tributary to the Chesapeake Bay and Atlantic Coastal bays in which the spawning of anadromous species of fish (e.g., rockfish, striped bass, yellow perch, white perch, shad, and river herring) occurs or has occurred. The streams are identified by the Department of Natural Resources.
- (9) "Aquaculture" means: (a) Farming or culturing of finfish, shellfish, other aquatic plants or animals or both, in lakes, streams, inlets, estuaries, and other natural or artificial water bodies or impoundments; (b) Activities include hatching, cultivating, planting, feeding, raising, and harvesting of aquatic plants and animals and the maintenance and construction of necessary equipment, buildings, and growing areas; and (c) Cultivation methods include, but are not limited to, seed or larvae development and grow out facilities, fish ponds, shellfish rafts, rack and longlines, seaweed floats and the culture of clams and oysters on tidelands and

subtidal areas. For the purpose of this definition, related activities such as wholesale and retail sales, processing and product storage facilities are not considered aquacultural practices.

(10) "Barren land" means unmanaged land having sparse vegetation.

(11) "Best Management Practices (BMPs)" means conservation practices or systems of practices and management measures that control soil loss and reduce water quality degradation caused by nutrients, animal waste, toxics and sediment. Agricultural BMPs include, but are not limited to, strip cropping, terracing, contour stripping, grass waterways, animal waste structures, ponds, minimal tillage, grass and naturally vegetated filter strips, and proper nutrient application measures.

(12) "Buffer" means area that based on conditions at the time of development, is immediately landward from mean high water of tidal waterways, the edge of bank of a tributary stream, or the edge of a tidal wetland; and the area exists, or may be established in, natural vegetation to protect a stream, tidal wetland, tidal waters or terrestrial environments from human disturbance. The Buffer includes an area of at least 100-feet, even if that area was previously disturbed by human activity, and also includes any expansion for contiguous areas, including a steep slope, hydric soil, highly erodible soil, nontidal wetland, or a Nontidal Wetland of Special State Concern as defined in COMAR 26.23.01.01.

(13) "Buffer Management Plan" means a narrative, graphic description, or plan of the Buffer that is necessary when an applicant proposes a development activity that will affect a portion of the Buffer, affect Buffer vegetation, or require the establishment of a portion of the Buffer in vegetation. Buffer Management Plan includes a major Buffer Management Plan, a minor Buffer Management Plan, or a Simplified Buffer Management Plan as described in this ordinance.

(14) "Bufferyard" means an area at least 25 feet wide, located between development activity and tidal waters, tidal wetlands, or a tributary stream, planted with vegetation consisting of native canopy trees, understory trees, shrubs, and perennial herbaceous plants that is used in Modified Buffer Areas to provide water quality and habitat benefits. This area is to be managed and maintained in a manner that optimizes these benefits.

(15) "Canopy tree" means a tree that when mature commonly reaches a height of at least 35 feet.

(16) "Clearcutting" means the removal of the entire stand of trees in one cutting with tree reproduction obtained by natural seeding from adjacent stands or from trees that were cut from advanced regeneration or stump sprouts or from planting of seeds or seedlings by man.

(17) "Cluster development" means a residential development in which dwelling units are concentrated in a selected area or selected areas of the development tract so as to provide natural habitat or other open space uses on the remainder.

(18) "Colonial nesting water birds" means herons, egrets, terns, and glossy ibis. For the purposes of nesting, these birds congregate (that is "colonize") in relatively few areas, at which time, the regional populations of these species are highly susceptible to local disturbances.

- (19) "COMAR" means the Code of Maryland Regulations, as from time to time amended, including any successor provisions.
- (20) "Commercial harvesting" means a commercial operation that would alter the existing composition or profile, or both, of a forest, including all commercial cutting operations done by companies and private individuals for economic gain.
- (21) "Commission" means the Critical Area Commission for the Chesapeake and Atlantic Coastal Bays.
- (22) "Community piers" means boat docking facilities associated with subdivisions or similar residential areas, and with condominium, apartment and other multiple family dwelling units. Private piers are excluded from this definition.
- (23) "Comprehensive or master plan" (CA) means a compilation of policy statements, goals, standards, maps and pertinent data relative to the past, present and future trends of the local jurisdiction including, but not limited to, its population, housing, economics, social patterns, land uses, water resources and their use, transportation facilities and public facilities prepared by or for the planning board, agency or office.
- (24) "Conforming" means a parcel or lot that meets all Critical Area requirements. Conforming does not include a parcel or lot for which a Critical Area variance is sought or has been issued; or that is located in the Resource Conservation Area and is less than twenty acres.
- (25) "Conservation easement" means a non-possessory interest in land which restricts the manner in which the land may be developed in an effort to reserve natural resources for future use.
- (26) "Consolidation" means a combination of any legal parcel of land or recorded legally buildable lots into fewer lots or parcels than originally existed. Consolidation includes any term used by the County for a development application that proposes to combine legal parcels of land or recorded, legally buildable lots into fewer parcels or lots than the number that existed before the application, a lot line abandonment, a boundary line adjustment, a replatting request, and a lot line adjustment.
- (27) "Cover crop" means the establishment of a vegetative cover to protect soils from erosion and to restrict pollutants from entering the waterways. Cover crops can be dense, planted crops of grasses or legumes, or crop residues such as corn, wheat or soybean stubble which maximize infiltration and prevent runoff from reaching erosive velocities.
- (24) "Critical Area" means all lands and waters defined in §8-1807 of the Natural Resources Article, Annotated Code of Maryland. Critical Area includes:
- (a) All waters of and lands under the Chesapeake Bay and Atlantic Coastal Bays and their tributaries to the head of tide;
  - (b) All State and private wetlands designated under Title 16 of the Natural Resources Article, Annotated Code of Maryland;

- (c) All land and water areas within 1,000 feet beyond the landward boundaries of State or private wetlands and the heads of tides designated under Title 16 of the Natural Resources Article, Annotated Code of Maryland; and
- (d) Modification to these areas through inclusions or exclusions proposed by local jurisdictions and approved by the Commission as specified in §8-1807 of the Natural Resources Article, Annotated Code of Maryland.
- (25) "Density" means the number of dwelling units per acre within a defined and measurable area.
- (26) "Developed woodlands" means an area of trees or of trees and natural vegetation that is interspersed with residential, commercial, industrial or recreational development.
- (27) "Developer" means a person who undertakes development activity as defined in this ordinance; or a person who undertakes development activity as defined in the Criteria of the Commission.
- (28) "Development" means any activity that materially affects the condition or use of dry land, land under water, or any structure.
- (29) "Development activity" means human activity that results in disturbance to land, natural vegetation, or a structure.
- (30) "Development envelope" includes an individually owned lot, the lot coverage on that individually owned lot, a road, a utility, a stormwater management measure, an onsite sewage disposal measure, any area subject to human use such as an active recreation area, any required buffers, and any additional acreage necessary to meet the requirements of the Program.
- (31) "Disturbance" means an alteration or change to the land. It includes any amount of clearing, grading, or construction activity. Disturbance does not include does not include gardening or maintenance of an existing grass lawn.
- (32) "Documented breeding bird areas" means forested areas where the occurrence of interior dwelling birds, during the breeding season, has been demonstrated as a result of on-site surveys using standard biological survey techniques.
- (33) "Dwelling unit" means a single unit providing complete, independent living facilities for at least one person, including permanent provisions for sanitation, cooking, eating, sleeping, and other activities routinely associated with daily life. Dwelling unit includes a living quarters for a domestic or other employee or tenant, an in-law or accessory apartment, a guest house, or a caretaker residence.
- (34) "Ecosystem" means a more or less self-contained biological community together with the physical environment in which the community's organisms occur.
- (35) "Endangered species" means any species of fish, wildlife, or plants that have been designated as endangered by regulation by the Secretary of the Department of Natural Resources. Designation occurs when the continued existence of these species as viable

components of the State's resources are determined to be in jeopardy. This includes any species determined to be an "endangered" species pursuant to the Federal Endangered Species Act, 16 U.S.C. §et seq., as amended.

(36) "Establishment" means the planting or regeneration of native vegetation throughout the Buffer.

(37) "Excess stormwater run-off" means all increases in stormwater resulting from:

- (a) An increase in the imperviousness or lot coverage of the site, including all additions to buildings, roads, and parking lots;
- (b) Changes in permeability caused by compaction during construction or modifications in contours, including the filling or drainage of small depression areas;
- (c) Alteration of drainageways, or regrading of slopes;
- (d) Destruction of forest; or
- (e) Installation of collection systems to intercept street flows or to replace swales or other drainageways.

(38) "Financial assurance" means a performance bond, letter of credit, cash deposit, insurance policy, or other instrument of security acceptable to the County.

(39) "Fisheries activities" means commercial water dependent fisheries facilities including structures for the parking, processing, canning, or freezing of finfish, crustaceans, mollusks, and amphibians and reptiles and also including related activities such as wholesale and retail sales product storage facilities, crab shedding, off-loading docks, shellfish culture operations, and shore-based facilities necessary for aquacultural operations.

(40) "Forest" means a biological community dominated by trees and other woody plants covering a land area of 10,000 square feet or greater. Forest includes areas that have at least 100 trees per acre with at least 50% of those trees having two-inch or greater diameter at 4.5 feet above the ground and forest areas that have been cut, but not cleared. Forest does not include orchards.

(41) "Forest Interior Dwelling Birds" means species of birds which require relatively large forested tracts in order to breed successfully (for example, various species of flycatchers, warblers, vireos, and woodpeckers).

(42) "Forest management" means the protection, manipulation, and utilization of the forest to provide multiple benefits, such as timber harvesting, water transpiration, wildlife habitat, etc.

(43) "Forest practice" means the alteration of the forest either through tree removal or replacement in order to improve the timber, wildlife, recreational, or water quality values.

(44) "Fully established" means the Buffer contains as much diverse, native vegetation as necessary to support a firm and stable riparian habitat capable of self-sustaining growth and regeneration.

(45) "Grandfathered parcel" or "Grandfathered lot" means a parcel of land that was created or a lot created through the subdivision process and recorded as a legally buildable lot prior to December 1, 1985.

(46) "Growth allocation" means the number of acres of land in the Critical Area that the County may use, or allocate to municipal jurisdictions to use, to create new Intensely Developed Areas and new Limited Development Areas. The Growth Allocation is five percent of the total Resource Conservation Area acreage in the County at the time the Critical Area Commission approved the County's original Critical Area Program, not including tidal wetlands or land owned by the federal government.

(47) "Habitat Protection Plan" means a plan that provides for the protection and conservation of the species and habitats identified as Habitat Protection Areas in the Critical Area. The plan shall be specific to the site or area where the species or its habitat is located and shall address all aspects of a proposed development activity that may affect the continued presence of the species. These include, but are not limited to, cutting, clearing, alterations of natural hydrology, and increases in lot coverage. In developing the Plan, an applicant shall coordinate with the Department of Natural Resources to ensure that the Plan is adequate to provide for long-term conservation and can be effectively implemented on the specific site.

(48) "Hazardous tree" means a tree with a structural defect, such as a crack, canker, weak branch union, decay, dead wood, root damage, or root disease, that decreases the structural integrity of the tree and which, because of its location, is likely to fall and cause personal injury or property damage, including acceleration of soil erosion; or based on its location in the landscape, a healthy tree that, with continued normal growth, will damage an existing permanent structure or significantly increase the likelihood of soil erosion.

"Hazardous tree" does not include a tree for which the likelihood of personal injury, property damage, or soil erosion can reasonably be eliminated or significantly diminished with routine and proper arboricultural practices, such as regular watering, application of fertilizer or mulch, and pruning; or by relocation of property that is likely to be damaged.

(49) "Highly erodible soils" means those soils with a slope greater than 15 percent; or those soils with a K value greater than .35 and with slopes greater than 5 percent.

(50) "Historic waterfowl staging and concentration area" means an area of open water and adjacent marshes where waterfowl gather during migration and throughout the winter season. These areas are historic in the sense that their location is common knowledge and because these areas have been used regularly during recent times.

(51) "Home improvement" means the addition to or alteration, conversion, improvement, modernization, remodeling, repair, or replacement of a building or part of a building that is used or designed to be used as a residence or dwelling place or a structure adjacent to that building; or an improvement to land adjacent to the building. Home improvement includes construction, improvement, or replacement, on land adjacent to the building, of a driveway, fall-out shelter, fence, garage, landscaping, deck, pier, porch, or swimming pool; a shore erosion control project, as defined under § 8-1001 of the Natural Resources Article, for a residential property; connection, installation, or replacement, in the building or structure, of a dishwasher, disposal,

or refrigerator with an icemaker to existing exposed household plumbing lines; installation in the building or structure, of an awning, fire alarm, or storm window; and work done on individual condominium units.

(52) "Hydric soils" means soils that are wet frequently enough to periodically produce anaerobic conditions, thereby influencing the species composition of growth, or both, of plants on those soils.

(53) "Hydrophytic vegetation" means those plants cited in "Vascular Plant Species Occurring in Maryland Wetlands" (Dawson, F. et al., 1985) which are described as growing in water or on a substrate that is at least periodically deficient in oxygen as a result of excessive water content (plants typically found in water habitats).

(54) "Immediate family" means a father, mother, son, daughter, grandfather, grandmother, grandson, or granddaughter.

(55) "In-kind replacement" means the removal of a structure and the construction of another structure that is smaller than or identical to the original structure in use, footprint area, width, and length.

(56) "Intensely Developed Area" means an area of at least 20 acres or the entire upland portion of the critical area within a municipal corporation, whichever is less, where: residential, commercial, institutional, or industrial developed land uses predominate; and a relatively small amount of natural habitat occurs. These areas include: an area with a housing density of at least four dwelling units per acre; an area with public water and sewer systems with a housing density of more than three dwelling units per acre.

(57) "Invasive species" means a type of plant that is non-native to the ecosystem under consideration and whose introduction causes, or is likely to cause, economic or environmental harm or harm to human health.

(58) "K Value" means the soil erodibility factor in the Universal Soil Loss Equation. It is a quantitative value, that is experimentally determined.

(59) "Land-based aquaculture" means the raising of fish or shellfish in any natural or man-made, enclosed or impounded, water body.

(60) "Land clearing" means any activity that removes the vegetative ground cover.

(61) "Landforms" means feature of the earth's surface created by natural causes.

(62) "Landward edge" means the limit of a site feature that is farthest away from a tidal water, tidal wetland, or tributary stream.

(63) "Large shrub" means a shrub that, when mature, reaches a height of at least six feet.

(64) "Legally developed" means all physical improvements to a property that existed before Critical Area Commission approval of a local Program, or were properly permitted in accordance with the provisions of the local Program in effect at the time of construction.

(65) "Limit of disturbance" means the area of a development or redevelopment activity that includes temporary disturbance and permanent disturbance.

(66) "Limited Development Area" means an area: with a housing density ranging from one dwelling unit per five acres up to four dwelling units per acre; with a public water or sewer system; that is not dominated by agricultural land, wetland, forests, barren land, surface water, or open space; or that is less than 20 acres and otherwise qualifies as an intensely developed area under the definition in this Chapter.

(67) "Living shoreline" means a suite of stabilization and erosion control measures that preserve the natural shoreline and are designed to minimize shoreline erosion, maintain coastal process, and provide aquatic habitat. Measures must include marsh plantings and may include the use of sills, sand containment structures, breakwaters, or other natural components.

(68) "Local significance" means development of a minor scale, which causes environmental or economic consequences that are largely confined to the immediate area of the parcel of land on which it is located; does not substantially affect the Critical Area Program of the County; and is not considered to be major development as defined in this chapter.

(69) "Lot coverage" means the percentage of a total lot or parcel that is: occupied by a structure, accessory structure, parking area, driveway, walkway, or roadway; or covered with a paver, walkway gravel, stone, shell, impermeable decking, a paver, permeable pavement, or other any manmade material. Lot coverage includes the ground area covered or occupied by a stairway or impermeable deck, but does not include: a fence or wall that is less than one foot in width that has not been constructed with a footer; a walkway in the Buffer or expanded Buffer, including a stairway, that provides direct access to a community or private pier; a wood mulch pathway; or a deck with gaps to allow water to pass freely.

(70) "Major Buffer Management Plan" means a type of Buffer Management Plan and all supporting documentation required under Chapter 1-124 of this Ordinance.

(71) "Major development" means development of a scale that may cause State-wide, regional, or inter-jurisdictional, environmental or economic effects in the Critical Area, or which may cause substantial impacts on the Critical Area Program of a local jurisdiction. This development includes, but is not limited to, airports, powerplants, wastewater treatment plants, highways, regional utility transmission facilities, prisons, hospitals, public housing projects, public beaches, and intensely developed park and recreation facilities.

(72) "Marina" means any facility for the mooring, berthing, storing, or securing of watercraft, but not including community piers and other non-commercial boat docking and storage facilities

(73) "Mean High Water Line" (MHWL) means the average level of high tides at a given location.

- (74) "Minor Buffer Management Plan" means a type of Buffer Management Plan and all supporting documentation required under Chapter 1-124 of this Ordinance.
- (75) "Mitigation" means an action taken to compensate for adverse impacts to the environment resulting from development, development activity, or a change in land use or intensity.
- (76) "Modified Buffer Area (MBA)" means an area officially mapped by the County and approved by the Critical Area Commission as a Modified Buffer Area, where it has been sufficiently demonstrated that the existing pattern of residential, industrial, commercial, institutional, or recreational development prevents the Buffer from fulfilling its water quality and habitat functions, and where development in accordance with specific BMA provisions can be permitted in the Buffer without a variance.
- (77) "Native plant" means a species that is indigenous to the physiographic area in Maryland where the planting is proposed.
- (78) "Natural features" means components and processes present in or produced by nature, including, but not limited to, soil types, geology, slopes, vegetation, surface water, drainage patterns, aquifers, recharge areas, climate, flood plains, aquatic life, and wildlife.
- (79) "Natural forest vegetation" means vegetation consisting of canopy trees, understory trees, shrubs, and herbaceous plants that are typically found in riparian areas in the State of Maryland. Areas of natural forest vegetation planted to meet the mitigation requirements in this ordinance shall resemble the structure and species composition of natural forests.
- (80) "Natural Heritage Area" means any communities of plants or animals which are considered to be among the best Statewide examples of their kind, and are designated by regulation by the Secretary of the Department of Natural Resources.
- (81) "Natural parks" means areas of natural habitat that provide opportunities for those recreational activities that are compatible with the maintenance of natural conditions.
- (82) "Natural regeneration" means the natural establishment of trees and other vegetation with at least 400 free-to-grow seedlings per acre, which are capable of reaching a height of at least 20 feet at maturity.
- (83) "Natural vegetation" means those plant communities that develop in the absence of human activities.
- (84) "Nature-dominated" means a condition where landforms or biological communities, or both, have developed by natural processes in the absence of human activities.
- (85) "New development" means that for purposes of implementing specific provisions of this ordinance, new developments (as opposed to redevelopment) means a development activity that takes place on a property with pre-development imperviousness (in IDA) or lot coverage (LDA and RCA) of less than 15 percent as of December 1, 1985.

(86) "Non-point source pollution" means pollution generated by diffuse land use activities rather than from an identifiable or discrete facility. It is conveyed to waterways through natural processes, such as rainfall, storm runoff, or groundwater seepage rather than by deliberate discharge. Non-point source pollution is not generally corrected by "end-of-pipe" treatment, but rather by changes in land management practices.

(87) "Non-renewable resources" means resources that are not naturally regenerated or renewed.

(88) "Nontidal wetlands" means those areas regulated under Subtitle 26 of the Environment Article that are inundated or saturated by surface water or groundwater at a frequency and duration sufficient to support, and that under normal circumstances does support, a prevalence of vegetation typically adapted for life in saturated soil conditions, commonly known as hydrophytic vegetation. The determination of whether an area is a nontidal wetland shall be made in accordance with the publication known as the "Federal Manual for Identifying and Delineating Jurisdictional Wetlands," published in 1989 and as may be amended. Nontidal wetlands do not include tidal wetlands regulated under Title 16 of the Environment Article of the Annotated Code of Maryland.

(89) "Nonwater-dependent project" means a temporary or permanent structure that, by reason of its intrinsic nature, use, or operation, does not require location in, on, or over State or private wetlands.

(a) Nonwater-dependent includes:

(i) A dwelling unit on a pier;

(ii) A restaurant, a shop, an office, or any other commercial building or use on a pier;

(iii) A temporary or permanent roof or covering on a pier;

(iv) A pier used to support a nonwater-dependent use; and

(v) A small-scale renewable energy system on a pier, including:

(aa) A solar energy system and its photovoltaic cells, solar panels, or other necessary equipment;

(bb) A geothermal energy system and its geothermal heat exchanger or other necessary equipment; and

(cc) A wind energy system and its wind turbine, tower, base, or other necessary equipment.

(b) A non-water dependent project does not include:

(i) A fuel pump or other fuel-dispensing equipment on a pier;

(ii) A sanitary sewage pump or other wastewater removal equipment on a pier; or

(iii) An office on a pier for managing marina operations, including monitoring vessel traffic, registering vessels, providing docking services, and housing electrical or emergency equipment related to marina operations.

(90) "Offsets" means structures or actions that compensate for undesirable impacts.

(91) "Open space" means land and water areas retained in an essentially undeveloped state.

(92) "Overburden" means the strata or material in its natural state, before its removal by surface mining, overlying a mineral deposit, or in between mineral deposits.

(93) "Palustrine" means all non-tidal wetlands dominated by trees, shrubs, persistent emergent plants, or emergent mosses or lichens and all such wetlands that occur in tidal areas where the salinity due to ocean-derived salts is below one-half part per 1,000 parts of water.

(94) "Permanent disturbance" means a material, enduring change in the topography, landscape, or structure that occurs as part of a development or redevelopment activity.

"Permanent disturbance" includes:

- (a) Construction or installation of any material that will result in lot coverage;
- (b) Construction of a deck;
- (c) Grading or clearing (except where it meets the definition of temporary disturbance);
- and
- (d) The installation of a septic system, in a forest or developed woodland on a grandfathered lot, if clearing is required.

Permanent disturbance does not include installation of a septic system on a grandfathered lot if located in existing grass or clearing is not required.

(95) "Person" means an individual, partnership, corporation, contractor, property owner, or any other person or entity.

(96) "Physiographic features" means the soils, topography, land slope and aspect, and local climate that influence the form and species composition of plant communities.

(97) "Pier" means any pier, wharf, dock, walkway, bulkhead, breakwater, piles or other similar structure. Pier does not include any structure on pilings or stilts that was originally constructed beyond the landward boundaries of State or private wetlands.

(98) "Plant habitat" means a community of plants commonly identifiable by the composition of its vegetation and its physiographic characteristics.

(99) "Port" means a facility or area established or designated by the State or local jurisdictions for purposes of waterborne commerce.

(100) "Principal structure" means the primary or predominant structure on any lot or parcel. For residential parcels or lots, the principal structure is the primary dwelling.

(101) "Private harvesting" means the cutting and removal of trees for personal use.

(102) "Program amendment" means any change or proposed change to an adopted program that is not determined by the Chairman of the Critical Area Commission to be a Program refinement.

(103) "Program refinement" means any change or proposed change to an adopted program that the Chairman of the Critical Area Commission determines will result in a use of land or water in the Chesapeake Bay Critical Area or Atlantic Coastal Bays Critical Area in a manner consistent with the adopted Program, or that will not significantly affect the use of land or water in the Critical Area. Program refinement may include:

- (a) A change to an adopted Program that results from State law;

- (b) A change to an adopted Program that affects local processes and procedures;
- (c) A change to a local ordinance or code that clarifies an existing provision; and
- (d) A minor change to an element of an adopted Program that is clearly consistent with the provisions of State Critical Area law and all the Criteria of the Commission.

(104) "Project approvals" means the approval of development, other than development by the State or local government, in the Chesapeake Bay Critical Area by the appropriate local approval authority. The term includes approval of subdivision plats and site plans; inclusion of areas within floating zones; issuance of variances, special exceptions, and conditional use permits; and issuance of zoning permits. The term does not include building permits.

(105) "Property owner" means a person holding title to a property or two or more persons holding title to a property under any form of joint ownership.

(106) "Public water-oriented recreation" means shore-dependent recreation facilities or activities provided by public agencies that are available to the general public.

(107) "Reclamation" means the reasonable rehabilitation of disturbed land for useful purposes, and the protection of the natural resources of adjacent areas, including waterbodies.

(108) "Reconfiguration" means a change of the configuration of an existing lot or parcel line of any legal parcel of land or recorded legally buildable lot. Reconfiguration includes a lot line adjustment, a boundary line adjustment, and a replatting request.

(109) "Redevelopment" means the process of developing land which is or has been developed. For purposes of implementing specific provisions of this ordinance, redevelopment (as opposed to new development) means a development activity that takes place on property with pre-development imperviousness (in IDA) or lot coverage (in LDA and RCA) of 15 percent or greater.

(110) "Reforestation" means the establishment of a forest through artificial reproduction or natural regeneration.

(111) "Renewable resource" means a resource that can renew or replace itself and, therefore, with proper management, can be harvested indefinitely.

(112) "Resource Conservation Area" means an area that is characterized by nature dominated environments, such as wetlands, surface water, forests, and open space; and resource-based activities, such as agriculture, forestry, fisheries, or aquaculture. Resource conservation areas include areas with a housing density of less than one dwelling per five acres.

(113) "Resource utilization activities" means any and all activities associated with the utilization of natural resources such as agriculture, forestry, surface mining, aquaculture, and fisheries activities.

(114) "Restoration" means the act of returning a site or area to an original state or any action that reestablishes all or a portion of the ecological structure and functions of a site or area.

(115) "Riparian habitat" means a habitat that is strongly influenced by water and which occurs adjacent to streams, shorelines, and wetlands.

(116) "Road" means a public thoroughfare under the jurisdiction of the State, a county, a municipal corporation, or any other public body. "Road" does not include a drive aisle or driveway.

(117) "Seasonally flooded water regime" means a condition where surface water is present for extended periods, especially early in the growing season, and when surface water is absent, the water table is often near the land surface.

(118) "Selection" means the removal of single, scattered, mature trees or other trees from uneven-aged stands by frequent and periodic cutting operations.

(119) "Shore erosion protection works" means those structures or measures constructed or installed to prevent or minimize erosion of the shoreline in the Critical Area.

(120) "Significantly eroding areas" means areas that erode two feet or more per year.

(121) "Simplified Buffer Management Plan" means a type of Buffer Management Plan and all supporting documentation required under Chapter 1-124 of this Ordinance.

(122) "Small shrub" means a shrub that, when mature, reaches a height no greater than six feet.

(123) "Soil Conservation and Water Quality Plans" means land-use plans for farms that show farmers how to make the best possible use of their soil and water resources while protecting and conserving those resources for the future. It is a document containing a map and related plans that indicate:

- (a) How the landowner plans to treat a farm unit;
- (b) Which best management practices the landowners plans to install to treat undesirable conditions; and
- (c) The schedule for applying those Best Management Practices.

(124) "Species in need of conservation" means those fish and wildlife whose continued existence as part of the State's resources are in question and which may be designated by regulation by the Secretary of Natural Resources as in need of conservation pursuant to the requirements of Natural Resources Article §§ 10-2A-06 and 4-2A-03, Annotated Code of Maryland.

(125) "Spoil pile" means the overburden and reject materials as piled or deposited during surface mining.

(126) "Steep slopes" means slopes of 15 percent or greater incline.

(127) "Structure" means anything constructed or erected on or over land or water that may or may not result in lot coverage.

(128) "Substantial alteration" means any repair, reconstruction, or improvement of a principal structure, where the proposed total footprint is at least 50 percent greater than that of the existing principal structure.

(129) "Supplemental planting plan" means a description and landscape schedule that shows the proposed species type, quantity, and size of plants to be located within a buffer if natural regeneration does not meet the required stem density.

(130) "Surface mining" means the breaking of the surface soil in order to extract or remove minerals in the Critical Area. Surface mining includes any activity or process constituting all or part of a process for the extraction or removal of minerals from their original location in the Critical Area and the extraction of sand, gravel, rock, stone, earth or fill from borrow pits for highway construction purposes or for other facilities. For the purpose of this ordinance, surface mining is also defined as operations engaged in processing minerals at the site of extraction; removal of overburden and mining of limited amounts of any mineral when done for the purpose of prospecting and to the extent necessary to determine the location, quantity or quality of any natural deposit; and mining operations, if the affected land exceeds one acre or more in area.

(131) "Temporary disturbance" means a short-term change in the landscape that occurs as part of a development or redevelopment activity. "Temporary disturbance" includes:

- (a) Storage of materials that are necessary for the completion of the development or redevelopment activity;
- (b) Construction of a road or other pathway that is necessary for access to the site of the development or redevelopment activity, if the road or pathway is removed immediately after completion of the development or redevelopment activity and the area is restored to its previous vegetative condition;
- (c) Grading of a development site, if the area is restored to its previous vegetative condition immediately after completion of the development or redevelopment activity; and
- (d) Locating a septic system on a lot created before local program approval if the septic system is located in existing grass or clearing is not required.

"Temporary disturbance" does not include a violation.

(132) "Thinning" means a forest practice used to accelerate tree growth of quality trees in the shortest interval of time.

(133) "Threatened species" means any species of fish, wildlife, or plants designated as such by regulation by the Secretary of the Department of Natural Resources that appear likely, within the foreseeable future, to become endangered, including any species of wildlife or plant determined to be a "threatened" species pursuant to the federal Endangered Species Act, 16 U.S.C. § 1431 et seq., as amended.

(134) "Topography" means the existing configuration of the earth's surface including the relative relief, elevation, and position of land features.

(135) "Transitional habitat" means a plant community whose species are adapted to the diverse and varying environmental conditions that occur along the boundary that separates aquatic and terrestrial areas.

- (136) "Transportation facilities" means anything that is built, installed, or established to provide a means of transport from one place to another.
- (137) "Tree" means a large, woody plant having 1 or several self-supporting stems or trunks and numerous branches that reach a height of at least 20 feet at maturity.
- (138) "Tributary stream" means a perennial stream or intermittent stream within the Critical Area that has been identified by site inspection or in accordance with local program procedures approved by the Critical Area Commission.
- (139) "Understory" means the layer of forest vegetation typically located underneath the forest canopy.
- (140) "Understory tree" means a tree that, when mature, reaches a height between 12 and 35 feet.
- (141) "Unwarranted hardship" means that without a variance, an applicant would be denied reasonable and significant use of the entire parcel or lot for which the variance is requested."
- (142) "Upland boundary" means the landward edge of a tidal wetland or nontidal wetland.
- (143) "Utility transmission facilities" means fixed structures that convey or distribute resources, wastes, or both, including but not limited to electrical lines, water conduits and sewer lines.
- (144) "Wash plant" means a facility where sand and gravel is washed during processing.
- (145) "Water-based aquaculture" means the raising of fish and shellfish in any natural, open, free-flowing water body.
- (146) "Water-dependent facilities" means those structures or works associated with industrial, maritime, recreational, educational, or fisheries activities that require location at or near the shoreline within the Buffer. An activity is water-dependent if it cannot exist outside the Buffer and is dependent on the water by reason of the intrinsic nature of its operation. Such activities include, but are not limited to, ports, the intake and outfall structures of power plants, water-use industries, marinas and other boat docking structures, public beaches and other public water-oriented recreation areas, and fisheries activities.
- (147) "Water-use industry" means an industry that requires location near the shoreline because it utilizes surface waters for cooling or other internal purposes.
- (148) "Waterfowl" means birds that frequent and often swim in water, nest and raise their young near water, and derive at least part of their food from aquatic plants and animals.
- (149) "Wildlife corridor" means a strip of land having vegetation that provides habitat and safe passage for wildlife.

(150) “Wildlife habitat” means those plant communities and physiographic features that provide food, water, cover, and nesting areas, as well as foraging and feeding conditions necessary to maintain populations of animals in the Critical Area.
