#### INDEPENDENT AUDITOR'S REPORT

To the Town Council Town of North Beach North Beach, Maryland

We have audited the accompanying financial statements of the governmental activities, the business-type activities and each major fund of the Town of North Beach, North Beach, Maryland, as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Town of North Beach's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

#### Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of the Town of North Beach, as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### Other Matters

#### **Report on Summarized Comparative Information**

We have previously audited the Town of North Beach's 2019 financial statements, and our report dated January 3, 2020 expressed unmodified opinions on those audited financial statements. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2019, is consistent, in all material respects, with the audited financial statements from which it has been derived.

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the budgetary comparison schedule – General Fund and the schedules of the Town's proportionate share of the net pension liability and pension plan contributions on pages 3 through 11 and 36 through 39 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 5, 2021, on our consideration of the Town of North Beach's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Town of North Beach's internal control over financial reporting and compliance.

BBD, LLP

Philadelphia, Pennsylvania January 5, 2021

#### MANAGEMENT'S DISCUSSION AND ANALYSIS - UNAUDITED

#### June 30, 2020

Management's discussion and analysis ("MD&A") of the financial performance of the Town of North Beach, Maryland (the "Town") provides an overview of the Town's financial performance for the fiscal year ended June 30, 2020. Readers should also review the basic financial statements and related notes to enhance their understanding of the Town's financial performance.

#### **TOWN PROFILE**

The Town is located in the northern part of Calvert County at the crossroads of Route 261 and 260. Although considered to be in the Washington, DC metropolitan area, the Town's location also gives it easy access to Baltimore and Annapolis. The Baltimore/Washington, DC area is considered to be one of the fastest growing regions in the nation. The Town's proximity to the Baltimore/Washington, DC area and the amount of Federal government spending in the region generally contributes to the Town's stability. The Town population was 1,978 according to the 2010 census and 1,880 according to the 2000 census. The major services provided by the Town include public safety (police), recreation, sanitation, highways and streets, planning and zoning, water and sewer and general administrative. The Town employs 9 full-time employees that consist of a Town Treasurer, Town Clerk, Receptionist, Director of Public Works, Assistant Director of Public Works, two other public works employees, Waterfront Manager and Marketing/Public Relations Director, 1 part-time Code Enforcement Officer and 30 seasonal employees from April to October. The Town has experienced steady growth over the years with some fluctuations due to economic and weather related events. Overall, the number of year round residents and seasonal visitors has increased moderately in recent years.

#### FINANCIAL HIGHLIGHTS

- In December 2019, an outbreak of a novel strain of coronavirus ("COVID-19") was identified and has since spread worldwide including the United States. In March, 2020, the World Health Organization characterized COVID-19 as a pandemic and Maryland Governor Larry Hogan ordered the closure of the physical location of every "non-essential business" in Maryland for what was an extended period of time. Although the impact of COVID-19 included the disruption of some Town services and impaired the ability of the Town to generate revenues, it did not negatively impact the Town's financial condition during 2020.
- On a government-wide basis including all governmental activities and the business-type activities, the assets and
  deferred outflows of the Town exceeded liabilities and deferred inflows resulting in total net position at the close
  of the 2019-2020 fiscal year of \$19,344,855. During the 2020 fiscal year, the Town had an increase in total net
  position of \$672,431. The net position of the governmental activities increased by \$616,256 and net position of
  the business-type activities increased by \$56,175.
- At of the close of the 2019-2020 fiscal years, the Town's governmental funds reported combined ending fund balances of \$2,712,315 an increase of \$455,295 in comparison with the prior year.
- The General Fund reported an increase in fund balance of \$557,426, bringing the cumulative balance to \$2,579,205 or 85.56% of total General Fund expenditures at the conclusion of the 2019-2020 fiscal years.

#### **OVERVIEW OF THE FINANCIAL STATEMENTS**

The MD&A is intended to serve as an introduction to the Town's basic financial statements. The Town's basic financial statements are comprised of three components: 1) government-wide financial statements; 2) fund financial statements; and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

#### **GOVERNMENT-WIDE FINANCIAL STATEMENTS**

The government-wide financial statements are designed to provide readers with a broad overview of the Town's finances, in a manner similar to a private-sector business.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS - UNAUDITED

#### June 30, 2020

The Statement of Net Position presents information on all of the Town's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating. To assess the Town's overall health, the reader will need to consider additional nonfinancial factors such as changes in the Town's tax base and the condition of the Town's assets.

The *Statement of Activities* presents information showing how the Town's net position changed during the most recent fiscal year. All changes in net position are reported as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g. uncollected taxes and earned but unused vacation leave).

The government-wide financial statements distinguish functions of the Town that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the Town include general government, community development, public safety and public works. Business-type activities consist of the Town's operation of a water supply and sewage collection system.

The government-wide financial statements can be found on pages 12 and 13 of this report.

#### **FUND FINANCIAL STATEMENTS**

The fund financial statements provide more detailed information about the Town's funds. A fund is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The Town uses governmental and proprietary fund financial statements to provide more detailed information about the Town's most significant funds rather than the Town as a whole.

#### Governmental Funds

Most of the Town's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using the modified accrual accounting method, which measures cash and all other financial assets that can be readily converted to cash. The governmental fund statements provide a detailed short-term view of the Town's general government operations and the basic services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the Town's programs. The reconciliation between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is provided in the financial statements.

The governmental fund financial statements can be found on pages 14 through 17 of this report.

#### **Proprietary Funds**

Proprietary funds are used to account for operations that are financed and operated in a manner similar to private business enterprises in which costs are recovered primarily through user charges. Proprietary fund financial statements, like government-wide financial statements, provide both long-term and short-term financial information. The fund financial statements provide more detail and additional information, such as cash flows, for the Town's proprietary funds. The proprietary funds are used to report the same functions presented as business-type activities in the government-wide financial statements which consist of the Town's operation of a water supply and sewage collection system.

The proprietary fund financial statements can be found on pages 18 through 20 of this report.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS - UNAUDITED

June 30, 2020

#### Notes to the Financial Statements

The notes to the basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

The notes to the financial statement can be found on pages 21 through 35 of this report.

#### Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Town, which consists of a budgetary comparison schedule for the General Fund and schedules of net pension liability and Town pension contributions.

The required supplementary information can be found on pages 36 through 39 of this report.

#### **GOVERNMENT-WIDE FINANCIAL ANALYSIS**

As noted above, net position may serve as a useful indicator of the Town's financial position. At the close of the 2019-2020 fiscal year, the Town's assets and deferred outflows exceeded liabilities and deferred inflows by \$19,344,855. The following table presents condensed information for the Statement of Net Position of the Town at June 30, 2020 and 2019.

	Governmental <u>Activities</u>			ss-Type vities	Totals		
	2020	2019	2020	2019	2020	<u>2019</u>

Restricted	133,110	235,241	-	-	133,110	235,241	
Unrestricted	2,314,771	1,899,753	1,612,332	<u>1,638,448</u>	3,927,103	3,538,201	
Total net position	<u>\$15,607,242</u>	<u>\$14,990,986</u>	<u>\$3,737,613</u>	<u>\$3,681,438</u>	<u>\$19,344,855</u>	<u>\$18,672,424</u>	

The Town's total assets as of June 30, 2020 were \$26,013,748 of which \$4,509,973 or 17.34% consisted of cash and \$21,001,111 or 80.73% consisted of the Town's investment in capital assets. The Town's total liabilities as of June 30, 2020 were \$6,709,431 of which \$5,716,469 or 85.20% consisted of bonds and notes payable used primarily to acquire and construct capital assets.

Of the Town's total net position at June 30, 2020, \$3,927,103 is unrestricted and may be used to meet the Town's obligations to citizens and creditors. The Town's unrestricted net position increased by \$388,902 primarily due to the result of current operations.

A portion of the Town's net position reflects its restricted net position which totaled \$133,110 as of June 30, 2020. The Town's restricted net position relates to the Town's capital projects fund and economic development fund.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS - UNAUDITED

#### June 30, 2020

The largest portion of the Town's net position reflects its investment in capital assets, less any related debt used to acquire those assets that are still outstanding. Capital assets are used to provide services to residents and they are not available for future spending. Although the investment in capital assets is report net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. For the year ended June 30, 2020, the Town's investment in capital assets, net of related debt increased \$385,660 because the debt taken out to acquire the capital assets was being repaid faster than the capital assets were being depreciated and capital assets were acquired with funding sources other than long-term debt.

The following table presents condensed information for the Statement of Activities of the Town for 2020 and 2019:

		Governmental Activities			ss-Type vities	Totals		
	2020	i		2019	2020	<u>2019</u>	2020	2019

#### MANAGEMENT'S DISCUSSION AND ANALYSIS - UNAUDITED

June 30, 2020

#### Governmental Activities

The cost of all governmental activities in 2019-2020 was \$3,145,643. The amount that taxpayers ultimately financed for these activities through Town taxes was \$1,674,435 or 53.23%. A majority of the other expenses were financed through charges for services by those who directly benefited from the programs (\$669,166 or 21.27%).

State shared revenue decreased from the prior year by \$80,960 due to decreases in gaming revenue directly as a result of the COVID-19 shutdown.

General government programs account for 32.96%, community development programs account for 18.54%, public safety programs 20.44%, and public works programs 25.53% of the total expenses in the governmental activities. General government expenses decreased \$49,704 due to decreases general services costs related to maintenance and compensated absences and pension adjustments. Public safety expenses decreased \$66,411 due to decreases in the need for part-time officers and beach patrol salaries caused by COVID-19 closures. Public works expenses increased \$118,545 due to storm sewer and refuse collection costs.

#### **Business-Type Activities and Proprietary Funds**

The business-type activities and proprietary funds of the Town include water and sewer operations. The Town has entered into a joint venture with Chesapeake Beach, Maryland and Calvert County, the purpose of which is to borrow money to finance the construction, or acquisition, of and operate sewer facilities, consisting of a sewage treatment plant and collections systems. The Town maintains its own water system, which consists of a water tower and two wells.

Charges for services represent the principal revenue source for the Town's business-type activities and proprietary funds. Current year operating revenues decreased \$32,630 or 2.42% due to no current year water and sewer tapping revenue. Expenses within the business-type activities and proprietary funds decreased \$210,907 or 14.33% due to decreases in repairs and maintenance and meters purchased in the prior year that were not required in the current year.

#### FINANCIAL ANALYSIS OF THE TOWN'S FUNDS

The Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

#### Governmental Funds

The governmental fund financial statements provide detailed information of the Town's major funds. Some funds are required to be established by State statute while other funds are established by the Town to manage money restricted for a specific purpose.

As of June 30, 2020, the Town's governmental funds reported combined ending fund balances of \$2,712,315, an increase of \$455,295, as compared to the prior year. At June 30, 2020, the governmental fund fund balance includes \$124,868 committed to economic development, \$8,242 restricted for capital projects and unassigned amounts of \$2,579,205.

#### General Fund

The General Fund is the chief operating fund of the Town. As of June 30, 2020, the total fund balance of the General Fund was \$2,579,205. The fund balance increased by \$557,426 during the year ended June 30, 2020.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS - UNAUDITED

#### June 30, 2020

The following analysis has been provided to assist the reader in understanding the financial activities of the General Fund fund during the 2019-2020 year.

#### **General Fund Revenues and Other Financing Sources**

	<u>2020</u>	<u>2019</u>	\$ Change	% Change
Taxes	\$1,825,115	\$1,598,737	\$ 226,378	14.26
Charges for services	578,514	731,712	(153,198)	(20.94)
State shared revenues	766,201	847,161	(80,960)	(9.56)
Intergovernmental revenues	141,414	66,145	75,269	113.79
Contributions and donations	2,250	7,949	(5,699)	(71.69)
Cell tower revenues	147,477	142,892	4,585	3.21
Franchise fees	59,890	44,200	15,690	35.50
Earnings on investments	48,570	65,359	(16,789)	(25.69)
Miscellaneous	2,359	3,921	(1,562)	(39.84)
	<u>\$3,571,790</u>	\$3,508,076	\$ 63,714	<u>1.82</u>

Revenues and other financing sources increased by \$63,714 or 1.8% in 2019-2020 compared to 2018-2019. Major fluctuations in revenues and other financing sources compared to the prior year are as follows:

- Taxes increase of \$226,378 or 14.26% was due to better collections of real estate taxes.
- Charges for services decreased \$153,198 or 20.94% due to decreases in beach fees and related activity and other events related to closings due to COVID-19.
- State shared revenues decrease of \$80,960 or 9.56% was due to decreases in gaming revenues directly related to the COVID-19 shutdown.
- Intergovernmental revenues increased \$75,269 or 113.79% due to increase in MEA grant revenue and current year CARES Act grant receipts.
- Franchise fees increased \$15,690 or 35.50% due to increases in rates and related charges.
- Earnings on investments decreased by \$16,789 or 25.69% due to decrease in investment rates.

#### **General Fund Expenditures and Other Financing Uses**

	<u>2020</u>	<u>2019</u>	\$ Change	% Change
General government	\$ 969,497	\$ 960,232	\$ 9,265	0.96
Community development	208,409	255,350	(46,941)	(18.38)
Public safety	642,866	709,277	(66,411)	(9.36)
Public works	510,220	517,731	(7,511)	(1.45)
Capital outlay	49,833	9,317	40,516	434.86
Debt service	541,853	542,187	(334)	(0.06)
Transfers out	91,686		91,686	100.00
	<u>\$3,014,364</u>	\$2,994,094	\$ 20,270	0.68

Expenditures and other financing uses increased by \$20,270 or 0.68% in 2019-2020 compared to 2018-2019. Major fluctuations in expenditures compared to the prior year are as follows:

- Community development expenses decreased by \$46,941 or 18.38% due to decreases in events expenses and promotional expenses which directly correlates to decrease in related revenue due to COVID-19 shutdown.
- Public safety expenses decreased by \$66,411 or 9.36% due to decreases in part time officers and beach patrol salaries.
- Capital outlay increased by \$40,516 or 434.86% due to purchase of public works and welcome center vehicles in 2019-2020.
- Transfers out in 2019-2020 represent transfers to Capital Projects Fund to subsidize capital projects.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS - UNAUDITED

June 30, 2020

#### Capital Projects Fund

The Capital Projects Fund accounts for funding for major capital expenditures of the Town. Revenue is provided by General Fund transfers and intergovernmental revenues. The remaining balance of \$8,242 as of June 30, 2020 is restricted for future capital expenditures.

The major capital projects and purchases funded by the Capital Projects Fund during the year ended June 30, 2020 were as follows:

- Construction costs associated with town street light project
- · Construction costs associated with library project

#### GENERAL FUND BUDGET INFORMATION

The Town maintains its financial records and prepares its financial reports on the modified accrual basis of accounting. The Town budgets and expends funds according to procedures mandated by the Town Charter. An annual operating budget is prepared by management and submitted to the Town Council prior to the beginning of fiscal year on July 1 each year. The significant budgeted fund is the General Fund.

The schedule comparing the Town's budget and actual results can be found on pages 36 and 37. Actual revenues and other financing sources were \$435,446 more than budgeted amounts and actual expenditures and other financing uses were \$121,980 less than budgeted amounts resulting in a net positive variance of \$557,426. A summary of significant variations between budget amounts and actual results are as follows:

- Real estate taxes and property tax penalties exceeded budgeted amount by \$227,919 as a result of better than expected collection in 2019-2020 of current and delinquent property taxes by the County.
- Charges for services fell short of the budgeted amount by \$94,882 due to beach fees, events and related expenses being lower than anticipated in the current year due to the COVID-19 pandemic and closings related to it.
- Refuse collection fees exceeded budgeted amounts by \$20,629 due to additional billings during the current year not budgeted.
- State-shared revenues were \$93,833 higher than budgeted amounts because of local income taxes being higher than budget offset by lower gambling revenue received being less than budgeted due to COVID-19 shutdown.
- Cell tower revenue exceeded budget by \$10,977 due to increases in rates and related charges.
- Intergovernmental revenues were \$103,950 higher than budgeted as MEA Grant and CARES Act grant were not budgeted in the current year.
- Franchise fees were \$22,200 higher than budget due to increases in rates and related charges.
- Earnings on investments was \$48,320 more than budgeted due to conservative budgeting of this item.
- Legislative expenses were \$25,231 less than budgeted due to less than anticipated Town council expenses
- Administrative expenses were \$63,104 more than budgeted due to administrative salaries, bank charges and unbudgeted MEA grant expenditures being more than budgeted offset by Town Hall expenses, general code update and code inspection salaries all less than budgeted due to change in operations and duties due to COVID-19.
- Professional services were \$25,925 less than budgeted due to accounting and engineering expenses being lower than budgeted.
- Events expense were \$58,797 and promotions and public relations \$24,777 less than budgeted due to events cancelled due to COVID-19.
- Welcome center expenses were \$43,444 less than budgeted due to closures associated with COVID-19.
- Public safety expenditures were less than budgeted by \$12,606 due to beach patrol decreases related to beach activity and part time officers being less than budgeted due to COVID-19.
- Public works expenses were \$30,346 and capital outlay \$52,401 less than budgeted due to many budgeted items were not expended in the current year due to the COVID-19 pandemic which required changes to operations.
- Transfers out of \$91,686 to subsidize capital projects were not budgeted.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS - UNAUDITED

June 30, 2020

#### CAPITAL ASSETS AND DEBT ADMINISTRATION

#### Capital Assets

The Town's investment in capital assets for its governmental and business-type activities as of June 30, 2020, totaled \$21,001,111 (net of accumulated depreciation). Capital assets include land, land improvements, buildings and improvements, machinery and equipment and infrastructure. The total net decrease in the Town's capital assets for the current fiscal year was \$305,699 or 1.43%. The decrease was the result of current year depreciation in excess of capital additions. Current year net capital additions were \$402,653 and depreciation expense was \$708,352.

More detailed information about the Town's capital assets is presented in the notes to the basic financial statements.

#### **Debt Administration**

The power and obligation of the Town to borrow money by the issuance of its general obligation bonds, notes or any other evidences of indebtedness, whether issued pursuant to the authority of Section 19-719(A) of the Town Charter or other applicable law, shall be limited, exclusive of amounts being repaid by the water and sewer operations, to a total principal amount of general obligation indebtedness outstanding at the time any such debt is incurred equal to an amount not in excess of 20 percent of the assessable basis of property located in the Town. At June 30, 2020, the Town's outstanding debt, exclusive of amounts being repaid by the water and sewer operations, was 1.20% (\$3,046,247 governmental activities long-term debt/\$253,646,550 assessable taxable base) of the debt limit. The water and sewer revenues of the Town are pledged to liquidate long-term debt related to the water and sewer operations.

As of June 30, 2020, the Town had outstanding notes and bonds payable totaling \$5,716,469 in both the governmental and business-type activities. The total net decrease in the Town's outstanding notes and bonds payable for the current fiscal year was \$691,359 or 10.79%.

The Town reports its allocated portion of its defined benefit unfunded benefit obligation related to its participation in the Maryland State Retirement and Pension System ("MSRPS"). The Town's allocated portion of the net pension liability is an actuarially determined estimate of the unfunded cost of the pension plan obligation which totaled \$443,147 as of June 30, 2020. The Town's net pension liability increased by \$51,417 or 13.13% during the fiscal year.

Other long-term debt consists of the Town's liability for compensated absences which consists solely of its accrued vacation payable.

More detailed information about the Town's long-term debt is presented in the notes to the basic financial statements.

#### **ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES**

The adopted budget for 2020-2021 reduced the real property tax rate to \$0.6170 per \$100 of assessed valuation, a reduction of .0159 in relation to the 2019-2020 fiscal year. The Town has experienced a moderate increase in its assessable tax base which can be attributed to the construction of additional townhomes at the San Francisco by the Bay subdivision. All of the 135 units have been sold. Property tax revenue makes up approximately 59.7 percent of General Fund budgeted revenues and other financing sources.

Fees for trash, water, sewer and water benefits experienced no changes in rates for the 2020-2021 budget, while fees for water and sewer services were increased for usage in excess of 5,000 gallons.

Currently, there is opportunity for development along the waterfront that could generate more tourist activity and monies for the community by way of the planned construction of a hotel and convention center. The development and increase in visitors will be significant to the Town's continued economic development.

#### MANAGEMENT'S DISCUSSION AND ANALYSIS - UNAUDITED

#### June 30, 2020

The community has been impacted economically across all areas of Town, from government operations to our local businesses due to COVID-19. The Town Hall, public works and waterfront areas have had to set new procedures and operations in place to help protect the employees and the community. All Town Hall operations are remote and there is no public access to the Town Hall. All meetings are held virtually, to help reduce exposure for everyone. Limited staff are responsible for sanitation of public areas as outlined in the Governor's recommendations. Major reduction in the number of people allowed to gather in an area limit and reduce the revenue collected for the beach season and the decline in gaming revenues another industry and revenue source will adversely impact our general operations. Locally businesses are reduced to carry out only or in other cases they have had to expand to outdoor dining areas. However, this may be no longer feasible during the upcoming winter months and will surely further impact the Town's small business district. On a positive note, a COVID-19 vaccine has been developed and may bring relief in the near future.

#### CONTACTING THE TOWN'S FINANCIAL MANAGEMENT

The financial report is designed to provide our citizens, customers, investors and creditors with a general overview of the Town's finances. If you have questions about this report or need any additional information, contact The Town of North Beach, 8916 Chesapeake Avenue, North Beach, Maryland, 20714 or call (301) 855-6681.

RECONCILIATION OF STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES ON THE STATEMENT OF ACTIVITIES

NET CHANGE IN FUND BALANCES - GOVERNMENTAL FUNDS		\$ 455,295
Amounts reported for governmental activities in the statement of activities are different because:		<b>,</b> 100,=00
Capital outlays are reported in governmental funds as expenditures. However, in the statement of activities, the costs of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation expense exceeded capital outlays in the current period.		
Capital outlay expenditures, net Depreciation expense	\$ 385,441 (538,044)	(152,603)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of the governmental funds. Neither transaction, however, has any effect on the change in net position of governmental activities. This amount is the net effect of these differences in the treatment of long-term debt.		
Issuance of long-term debt Repayment of long-term debt	- 455,972	455,972
Because some property taxes and refuse fees will not be collected for several months after the Town's fiscal year ends, they are not considered as "available" revenues in the governmental fund. Deferred inflows of resources decreased by this amount this year.		
Deferred inflows of resources at June 30, 2019 Deferred inflows of resources at June 30, 2020	(194,897) 44,217	(150,680)
Some liabilities are not due and payable in the current period and, therefore, are not reported as expenditures in the governmental funds.		
Change in net pension liability and related deferred inflows and outflows Current year change in compensated absences	(7,134) 15,406	8,272
CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES		\$ 616,256

#### **NOTES TO FINANCIAL STATEMENTS**

June 30, 2020

#### (1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Town of North Beach, in Calvert County, Maryland (the "Town") was incorporated in 1910 under the laws of the State of Maryland. The Town operates under a form of government which comprises an elected sixmember Town Council and an elected Mayor, and provides the following services: public safety (police); recreation; sanitation; highways and streets; planning and zoning; water and sewer services; and general administrative services.

The financial statements of the Town have been prepared in accordance with generally accepted accounting principles ("GAAP") as applied to governmental units. The Governmental Accounting Standards Board ("GASB") is the authoritative standard-setting body for the establishment of governmental accounting and financial reporting principles. The more significant of these accounting policies are as follows:

#### Reporting Entity

GASB has established the criteria for determining the activities, organizations and functions of government to be included in the financial statements of the reporting entity. In evaluating the Town as a reporting entity, management has addressed all potential component units which may or may not fall within the Town's accountability. The criteria used to evaluate component units for possible inclusion as part of the Town's reporting entity are financial accountability and the nature and significance of the relationship. The Town is considered to be an independent reporting entity and has no component units.

#### Basis of Presentation

#### Government-Wide Financial Statements

The statement of net position and the statement of activities display information about the Town as a whole. These statements distinguish between activities that are governmental and those that are considered business-type activities.

The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of timing of related cash flow. This is the same approach used in the preparation of the proprietary fund financial statements but differs from the manner in which governmental fund financial statements are prepared as further defined below. Therefore, governmental fund financial statements include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements of governmental funds.

The government-wide statement of net position presents the financial position of the Town which is the difference between assets and deferred outflows of resources and liabilities and deferred inflows of resources and is classified in one of three components. Net investment in capital assets consists of capital assets net of accumulated depreciation and reduced by the outstanding balances of borrowing attributable to acquiring, constructing or improving those assets. The net position of the Town is reported as restricted when constraints placed on net position use is either externally imposed by creditors (such as through debt covenants), grantors, contributors or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. Unrestricted net position is the net position that does not meet the definition of "net investment in capital assets" or "restricted net position."

The statement of net position includes separate sections for deferred outflows of resources and deferred inflows of resources. Deferred outflows of resources represent a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense) until that time. Deferred inflows of resources represent an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time.

#### NOTES TO FINANCIAL STATEMENTS

June 30, 2020

The government-wide statement of activities presents a comparison between expenses and program revenues for each function of the business-type activities of the Town and for each governmental function. Expenses are those that are specifically associated with a service or program and are therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Revenues which are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each function is self-financing or draws from the general revenues of the Town.

Except for interfund activity and balances between the funds that underlie governmental activities and the funds that underlie business-type activities, which are reported as transfers and internal balances, the effect of interfund activity has been removed from these statements.

#### Fund Financial Statements

During the year, the Town segregates transactions related to certain Town functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements report detailed information about the Town. The focus of governmental and proprietary fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column.

#### Governmental Funds

All governmental funds are accounted for using the modified accrual basis of accounting and the current financial resources measurement focus. Under this basis, revenues are recognized in the accounting period in which they become measurable and available. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable. The Town reports the following major governmental funds:

General Fund – The General Fund is the primary operating fund of the Town. It is used to account for all financial resources except those properly accounted for in another fund.

Capital Projects Fund – The Capital Projects Fund accounts for all financial resources used for the acquisition or construction of major capital facilities not being financed by proprietary funds.

Economic Development Fund – The Economic Development Fund collects fees which are used for specific community development projects.

#### Revenue Recognition

In applying the "susceptible to accrual concept" under the modified accrual basis, revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Town considers property tax and refuse fee revenue to be available if collected within 60 days of the end of the fiscal period. Deferred revenue is reported in connection with receivables for property tax and refuse fee revenues that are not considered to be available to liquidate liabilities of the current period. Revenue from federal, state and other grants designated for payment of specific Town expenditures is recognized when the related expenditures are incurred; accordingly, when such funds are received, they are reported as deferred revenues until earned. Rental licenses are recorded as income in the period in which the revenue relates as the licenses are issued for a three year period. Other receipts are recorded as revenue when received in cash because they are generally not measurable until actually received.

#### **NOTES TO FINANCIAL STATEMENTS**

June 30, 2020

#### **Expenditure Recognition**

The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Most expenditures are measurable and are recorded when the related fund liability is incurred. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments are recorded only when payment is due. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds.

#### **Proprietary Funds**

Like the government-wide financial statements, proprietary funds are accounted for using the economic resources measurement focus and accrual basis of accounting. These funds account for operations that are primarily financed by user charges. The economic resource focus concerns determining costs as a means of maintaining the capital investment and management control. Revenues are recognized when they are earned and expenses are recognized when they are incurred. Allocations of certain costs, such as depreciation, are recorded in proprietary funds. The Town reports the following major proprietary funds:

Water and Sewer Funds – The Water and Sewer Funds are used to account for the operation of a water supply and sewage collection system.

These funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary funds' principal ongoing operations. The principal operating revenues of the Town's proprietary funds are charges for services. Operating expenses for the Town's proprietary funds include the cost of operations and maintenance and depreciation on capital assets. All revenues or expenses not meeting this definition are reported as nonoperating revenues and expenses.

#### Cash, Cash Equivalents and Investments

Temporary idle cash within the various funds is combined to form a cash and investment pool. Cash, investments and interest earnings are recorded in the individual funds. Funds available for short periods are transferred to an interest-bearing bank account. Funds available for longer periods are invested in certificates of deposit or the Maryland Local Government Investment Pool. Investments are stated at fair value. Statutes authorize the Town to invest in U.S. Treasury bills, time or share accounts of institutions insured by the Federal Deposit Insurance Corporation or in certificates of deposit when they are secured by proper bond or collateral, repurchase agreements, State Treasurer's investment pools or mutual funds.

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

#### Interfund Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/due from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

#### Property Taxes Receivable

Property is assessed at its value on January 1. Property taxes are billed on July 1 and payable in one installment on October 1. Property taxes not paid by October 1 of the levy year are subject to interest charges. Property taxes not paid by January of the second year are subject to tax sale. Taxpayers who have a principal residence within the Town have the option of paying in two installments which are due on September 1 and January 1. The County of Calvert bills and collects property taxes for the Town. Delinquent property taxes are considered fully collectible and, therefore, no allowance for uncollectible taxes is provided. The property tax rate for 2019-2020 was \$ .6329 per \$100 of assessed value.

#### **NOTES TO FINANCIAL STATEMENTS**

June 30, 2020

#### Accounts Receivable

The Town's accounts receivables are reported at net realizable value. The Town's water and sewer utilities experience very small losses from uncollectible accounts. Water and sewer fees constitute a lien against real property and usually can be collected in full when title transfers. Only balances that remain after tax sales are written off each year. Accordingly, an allowance for doubtful accounts has not been established by the Town for its business-type activities and proprietary funds.

#### **Unearned Revenues**

Unearned revenue arises when assets are recognized before revenue recognition criteria have been satisfied.

#### Prepaid Items

Certain prepayments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in the government-wide and fund financial statements.

#### Capital Assets

Capital assets, which include property, plant and equipment, are reported in the applicable governmental or business-type activities columns in the entity-wide financial statements and the proprietary fund financial statements. Capital assets are defined as assets with an initial individual cost of more than \$5,000 and an estimated useful life of more than one year. Such assets are recorded at historical cost if purchased or constructed. Donated capital assets are recorded at fair market value at time of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed, inclusive of ancillary costs.

GASB permits Phase III local governments to elect not to report infrastructure retroactively and report general infrastructure prospectively only. Management has assessed the impact of infrastructure capitalization on the financial statements and has determined that the cost outweighs the benefit of reporting the Town's infrastructure retroactively.

Property, plant and equipment (net of salvage value) of the Town is depreciated using the straight-line method over the following estimated useful lives:

Buildings and improvements	40 Years
Land improvements and infrastructure	15 – 40 Years
Furniture and fixtures	5 – 7 Years
Office equipment	3 – 5 Years
Water treatment plant	40 Years
Sewer pump stations	50 Years
Machinery and equipment	5 – 10 Years

#### **Impairment of Long-Lived Assets**

The Town evaluates prominent events or changes in circumstances affecting capital assets to determine whether impairment of a capital asset has occurred. A capital asset is generally considered impaired if both (a) the decline in service utility of the capital asset is large in magnitude and (b) the event or change in circumstances is outside the normal life cycle of the capital asset. If a capital asset is considered to be impaired, the amount of impairment is measured by the method that most reflects the decline in service utility of the capital asset at the lower of carrying value or fair value for impaired capital assets that will no longer be used by the Town. No impairment losses were recognized in the year ended June 30, 2020.

#### **NOTES TO FINANCIAL STATEMENTS**

June 30, 2020

#### Compensated Absences

The liability for compensated absences reported in the government-wide statements consists of unpaid accumulated vacation leave balances. All vacation pay is accrued when incurred in the government-wide financial statements. In the fund financial statements, governmental funds report only the compensated absence liability payable from expendable available financial resources.

#### **Long-Term Obligations**

In the government-wide and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities. In the fund financial statements, the face amount of debt issued is reported as other financing sources and uses.

#### **Fund Equity**

As prescribed by GASB, governmental funds report fund balance in classifications based primarily on the extent to which the Town is bound to honor constraints on the specific purposes for which amounts in the fund can be spent. The Town reports the following fund balance classifications:

#### Non-spendable

Non-spendable fund balances are amounts that cannot be spent because they are either (a) not in spendable form – such as inventory or prepaid insurance or (b) legally or contractually required to be maintained intact – such as a trust that must be retained in perpetuity.

#### Restricted

Restricted fund balances are restricted when constraints placed on the use of resources are either (a) externally imposed by creditors, grantors, contributors or laws or regulations of other governments or (b) imposed by law through constitutional provisions or enabling legislation.

#### Committed

Committed fund balances are amounts that can only be used for specific purposes determined by a formal action of the Town's highest level of decision-making authority, the Town Council. Committed amounts cannot be used for any other purpose unless the Town Council removes those constraints by taking the same type of formal action (e.g., resolution).

#### **Assigned**

Assigned fund balances are amounts that are constrained by the Town's intent to be used for specific purposes, but are neither restricted nor committed. Intent is expressed by (a) the Town Mayor or Treasurer or (b) an appointed body (e.g., finance committee) or (c) an official to which the Town has delegated the authority to assign, modify or rescind amounts to be used for specific purposes.

Assigned fund balance includes (a) all remaining amounts that are reported in governmental funds (other than the General Fund) that are not classified as non-spendable, restricted or committed, and (b) amounts in the General Fund that are intended to be used for a specific purpose. Specific amounts that are not restricted or committed in a special revenue fund or the capital projects fund are assigned for purposes in accordance with the nature of their fund type.

#### Unassigned

Unassigned fund balance is the residual classification for the General Fund. This classification represents General Fund balance that has not been assigned to other funds, and that has not been restricted, committed or assigned to specific purposes within the General Fund.

When both restricted and unrestricted resources are available for use, it is the Town's policy to use externally restricted resources first, then unrestricted resources—committed, assigned or unassigned—in order as needed.

#### **NOTES TO FINANCIAL STATEMENTS**

June 30, 2020

#### Comparative Data

Comparative totals for the prior year have been presented in the accompanying financial statements in order to provide an understanding of changes in the Town's financial position and operations. However, presentation of prior year totals by fund and activity type have not been presented in each of the statements since their inclusion would make the statements unduly complex and difficult to read. Summarized comparative information should be read in conjunction with the Town's financial statements for the year ended June 30, 2019, from which the summarized information was derived.

#### Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### **New Accounting Pronouncements**

GASB Statement No. 84, "Fiduciary Activities" will be effective for the Town for the year ended June 30, 2021. The objective GASB Statement No. 84 is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported. GASB Statement No. 84 establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities.

GASB Statement No. 87, "Leases" will be effective for the Town for the year ended June 30, 2022. The objective of GASB Statement No. 87 is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. GASB Statement No. 87 increases the usefulness of financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under GASB Statement No. 87, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about leasing activities. GASB Statement No. 89, "Accounting for Interest Cost Incurred Before the End of a Construction Period", will be effective for the Town for the year ended June 30, 2022. The objectives of GASB Statement No. 89 are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period.

GASB Statement No. 89 "Accounting for Interest Cost Incurred Before the End of a Construction Period" will be effective for the Town for the year ended June 30, 2021. The objectives of GASB Statement No. 89 are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period. Such interest costs includes all interest that previously was accounted for in accordance with the requirements of GASB Statement No. 62 "Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements", which are superseded by GASB Statement No. 89. GASB Statement No. 89 requires that interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund. GASB Statement No. 89 also reiterates that in financial statements prepared using the current financial resources measurement focus, interest cost incurred before the end of a construction period should be recognized as an expenditure on a basis consistent with government fund accounting principles.

#### **NOTES TO FINANCIAL STATEMENTS**

#### June 30, 2020

GASB Statement No. 90, "Majority Equity Interests – an amendment of GASB Statements No. 14 and No. 61", will be effective for the Town for the year ended June 30, 2021. The primary objects of GASB Statement No. 90 are to improve the consistency and comparability of reporting a government's majority equity interest in a legally separate organization and to improve the relevance of financial statement information for certain component units. It defines a majority equity interest and specifies that a majority equity interest in a legally separate organization should be reported as an investment if a government's holding of the equity interest meets the definition of an investment. A majority equity interest that meets the definition of an investment should be measured using the equity method, unless it is held by a special purpose government engaged only in fiduciary activities, a fiduciary fund, or an endowment (including permanent and term endowments) or permanent fund. Those governments and funds should measure the majority equity interest at fair value.

#### (2) STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

#### **Budgetary Information**

An annual budget is adopted prior to the beginning of each year for the General Fund and Proprietary Funds. The Town Council also adopts legal project-length budgets for its Capital Projects Fund. Since project periods may differ from the Town's fiscal year, a comparison of budgetary information for the Capital Projects Fund would not be meaningful and has not been presented in the accompanying financial statements. All budgets are adopted on a basis consistent with generally accepted accounting principles.

Budget adjustments are made during the year and approved by the Town Council.

Unused appropriations for all of the annually budgeted funds lapse at year end.

#### **Excess of Expenditures Over Appropriations**

The following General Fund functions incurred expenditures and other financing uses in excess of appropriations in the following amounts for the year ended June 30, 2020:

General government	
Administrative expenses	\$63,104
General services	\$10,222
Benefit services	\$ 2,876
General liability and property insurance	\$ 6,735
Debt service	
Principal on long-term debt	\$27,213
Transfers out	\$91,686

#### (3) DEPOSITS

#### Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in the event of a bank failure, the Town's deposits may not be returned. The Town does not have a policy for custodial credit risk on deposits. At June 30, 2020, the carrying amount of the Town's deposits was \$1,478,007 and the bank balance was \$1,326,312. Of the bank balance, all was either covered by Federal Depository Insurance or collateralized in accordance with Article 95, Section 22 of the Annotated Code of Maryland which requires all local government units to fully collateralize all bank deposits in the Town's name.

#### **NOTES TO FINANCIAL STATEMENTS**

June 30, 2020

A portion of the Town's deposits is in the Maryland Local Government Investment Pool ("MLGIP"). Although not registered with the Securities and Exchange Commission, the MLGIP is subject to regulatory oversight by the State of Maryland, acts like a money market mutual fund in that its objective is to maintain a stable net asset value of \$1 per share, is rated AAA by a nationally recognized statistical rating organization and subject to an independent annual audit. The carrying amount and bank balance of the Town's deposits in MLGIP at June 30, 2020 was \$3,031,966

#### (4) DUE FROM OTHER GOVERNMENTS

As of June 30, 2020, due from other governments consisted of the following:

	<b>General Fund</b>
State of Maryland	
Highway Administration – highway user's tax	\$ 24,800
Comptroller's Office – gambling income	7,921
Comptroller's Office – MTA	998
Comptroller's Office – critical areas	1,900
Department of Housing and Community Development – circuit rider	92,198
CARES Act recovery assistance program	16,822
State aid police protection	5,312
Calvert County	
Business license	<u> </u>
	<u>\$150,058</u>

#### (5) INTERNAL RECEIVABLES, PAYABLES AND TRANSFERS

The composition of interfund balances as of June 30, 2020 is as follows:

Receivable To	<u>Amount</u>	Payable From	<u>Amount</u>
Capital Projects Fund	<u>\$114,709</u>	General Fund	<u>\$114,709</u>

Interfund balances between funds represent temporary loans recorded at year-end subsequent to a final allocation of revenues and expenditures.

The composition of interfund balances as of June 30, 2020 is as follows:

<u>Transfers In</u>	<u>Amount</u>	Transfers Out	<u>Amount</u>
Capital Projects Fund	\$ 91,686	General Fund	\$ 91,686

Transfers to the Capital Projects Fund from the General Fund represent transfers to subsidize the acquisition costs for the purchase and construction of capital assets.

#### (6) CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2020 was as follows:

	Balance July 1, 2019	Increases	Decreases	Balance June 30, 2020

Less: current portion				707,823	
Total long-term debt				\$5,599,399	

Long-term debt of governmental activities is to be liquidated by the General Fund and long-term debt of business-type activities is to be liquidated by sewer and water operations.

Long-term debt outstanding as of June 30, 2020 consists of the following:

#### Bonds Payable - Governmental Activities

In November 2011, the Town issued its 2011 General Obligation Refunding Bonds in the amount of \$2,561,900. The proceeds of these bonds were used to refund the outstanding balances of its Refunding of 2010B – CDA Refunding bonds. The principal of these bonds is payable annually in varying amounts from May 2012 to May 2025. The interest on these bonds is payable semi-annually in November and May at the rate of 2.55%. These bonds are secured by the full faith and credit and unlimited taxing power of the Town.

\$1,036,700

In October 2012, the Town issued its 2012 Public Improvements Bond, Tax Exempt Series 2012A in the amount of \$1,606,000. The proceeds of these bonds were used for land acquisition. The principal of these bonds is payable annually in varying amounts from January 2014 to January 2028. The interest on these bonds is payable semi-annually in January and July at the rate of 1.95%. These bonds are secured by the full faith and credit and unlimited taxing power of the Town.

918.000

In October 2012, the Town issued its 2012 Public Improvements Bond, Taxable Series 2012B in the amount of \$720,000. The proceeds of these bonds were used for land acquisition. The principal of these bonds is payable annually in varying amounts from January 2014 to January 2028. The interest on these bonds is payable semi-annually in January and July at the rate of 2.65%. These bonds are secured by the full faith and credit and unlimited taxing power of the Town.

422,000

#### NOTES TO FINANCIAL STATEMENTS

June 30, 2020

In May 2017, the Town issued its 2017 Public Improvements Bond, Tax Exempt Series 2017B in the amount of \$785,777. The proceeds of these bonds were used for the acquisition of capital assets. The principal of these bonds is payable annually in varying amounts from July 2018 to January 2027. The interest on these bonds is payable semi-annually in January and July at the rate of 2.74%. These bonds are secured by the full faith and credit and unlimited taxing power of the Town.

530,070

In May 2017, the Town issued its 2017 Public Improvements Bond, Taxable Series 2017A in the amount of \$263,813. The proceeds of these bonds were used for the acquisition of capital assets. The principal of these bonds is payable annually in varying amounts from July 2018 to January 2024. The interest on these bonds is payable semi-annually in January and July at the rate of 3.95%. These bonds are secured by the full faith and credit and unlimited taxing power of the Town.

139,477

#### Total bonds payable - governmental activities

\$3,046,247

Annual debt service requirements to maturity on governmental activities long-term debt is as follows:

Year ending June 30,	Principal <u>Maturities</u>	Interest <u>Maturities</u>	Total <u>Maturities</u>
2021	\$ 467,992	\$ 76,374	\$ 544,366
2022	478,024	64,345	542,369
2023	491,172	52,046	543,218
2024	477,826	39,395	517,221
2025	464,508	27,049	491,557
2026-2028	<u>666,725</u>	29,171	695,896
	\$3,046,247	\$288,380	\$3,334,627

#### State Notes and Bonds Payable - Business-Type Activities

In December 2007, the Town entered into a loan agreement with the Maryland Water Quality Financing Administration to borrow a maximum of \$1,525,000 to finance the costs related to improving the existing regional wastewater treatment plant. The actual amount borrowed of \$1,074,744 is payable annually in varying amounts through February 2022. Interest is payable semi-annually in August and February at the rate of 1.00%. The loan is secured by the full faith and credit and unlimited taxing power of the Town.

\$ 144,994

In June 2012, the Town modified and reissued its Water System Refunding Bond of 2008, the balance of which was \$1,324,033 as of the date of modification and reissuance. The main purpose of the modification and reissuance was to reduce the interest rate on the bond from 4.59% to 2.50%. The principal of the reissued bond is payable annually in varying amounts from September 2012 to September 2031. The interest is payable semi-annually in September and March at the rate of 2.50%. On September 15, 2027, the registered owner of the modified and reissued bond has the right to reset the interest rate for the remaining term or to require repayment of the outstanding principal. This bond is secured by the full faith and credit and unlimited taxing power of the Town.

1,048,827

#### NOTES TO FINANCIAL STATEMENTS

June 30, 2020

In September 2013, the Town entered into a loan agreement with the Maryland Water Quality Financing Administration to borrow a maximum of \$1,850,000 to finance the costs related to improving the planning, design and construction of Enhanced Nutrient Removal (ENR) treatments facilities at the regional wastewater treatment plant. The total amount borrowed was \$1,784,939 payable annually in varying amounts from February 2017 to February 2036. Interest is payable semi-annually in August and February at the rate of 2.20%. These bonds are secured by the full faith and credit and unlimited taxing power of the Town.

1,476,401

#### Total state notes and bonds payable - business-type activities

\$2,670,222

Annual debt service requirements to maturity on business-type activities long-term debt is as follows:

Year ending June 30,	Principal <u>Maturities</u>	Interest <u>Maturities</u>	Total <u>Maturities</u>
2021	\$ 239,831	\$ 63,318	\$ 303,149
2022	223,502	58,782	282,284
2023	164,826	50,239	215,065
2024	168,718	46,349	215,067
2025	172,701	42,366	215,067
2026-2030	926,638	148,697	1,075,335
2031-2035	726,213	45,633	771,846
2036	<u>47,793</u>	1,052	48,845
	\$2,670,222	<u>\$456,436</u>	\$3,126,658

#### Line of Credit

The Town has an unsecured revolving line of credit with a bank that provides for advances up to \$75,000. Advances under the line of credit are payable monthly. A finance fee is charged on delinquent outstanding advances. Advances outstanding under the line of credit were \$5,767 at June 30, 2020.

#### (8) EMPLOYEE RETIREMENT SYSTEM

#### Plan Description

Substantially all permanent, full-time employees participate in the statewide contributory system of the State of Maryland. The plan of the Maryland State Retirement and Pension System (the "MSRPS") in which the Town participates is a multiple-employer defined benefit pension plan administered by the State of Maryland. The MSRPS was established by the State Personnel and Pensions Article of the Annotated Code of Maryland to provide retirement allowances and other benefits to state employees, teachers, police, judges, legislators and employees of participating governmental units. The MSRPS issues a comprehensive annual financial report that includes financial statements and required supplemental information for the plan. A copy of the report may be obtained by writing to the State Retirement and Pension System of Maryland, 201 West Preston Street, Baltimore, MD 21021, or by accessing its website at <a href="https://www.sra.state.md.us">www.sra.state.md.us</a>.

#### **Funding Policy**

The contribution policy is established by the State Personnel and Pensions Article and requires contributions by active members and the Town depending on the type of plan selected. The Town's selected plan does not require employees to contribute to the plan. The contributions required of employers are based upon an actuarial valuation. For the fiscal year ended June 30, 2020, the employer rate of contribution was 5.85% of covered payroll. The Town's contributions to MSRPS for the years ended June 30, 2018, 2019 and 2020 were \$37,230, \$44,120 and \$47,941, respectively. The contributions made by the Town equaled the required contributions for the respective years.

#### **NOTES TO FINANCIAL STATEMENTS**

June 30, 2020

# Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2020, the Town reported a liability of \$443,147 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2019. The Town's proportion of the net pension liability was based on a projection of the Town's long-term share of contributions to the pension plan relative to the projected contributions of all participants members, actuarially determined. As of June 30, 2019, the Town's proportion was 0.0021485% which was an increase of 0.0002815% from its proportion measured as of June 30, 2018.

As of June 30, 2020, the net pension liability of \$177,259 is a liability related to the governmental funds and is only recorded in the governmental activities in the government-wide statement of net position. The remaining \$265,888 of the net pension liability is recorded as a liability in the Water Fund for \$132,944 and in the Sewer Fund for \$132,944 in the proprietary funds statement of net position, and in the business-type activities in the government-wide statement of net position.

For the year ended June 30, 2020, the Town recognized pension expense of \$61,948. At June 30, 2020, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Contributions subsequent to measurement date	\$47,941	\$ -
Changes in assumptions	-	12,060
Net difference between projected and actual		
earnings on pension plan investments	9,111	-
Difference between actual and expected experience	<u> </u>	4,454
	<u>\$57,052</u>	<u>\$16,514</u>

\$47,941 reported as deferred outflows of resources related to pensions resulting from Town contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

#### Year ended June 30,

2020	\$(1,481)
2021	(1,481)
2022	(1,481)
2023	(1,481)
2024	_(1,479)
	<u>\$(7,403)</u>

#### **Actuarial Assumptions**

The key actuarial assumptions used to perform the June 30, 2019 pension liability calculation are as follows:

Actuarial	Entry age normal
Amortization method	Level percentage of payroll
Inflation	2.65% general, 3.15% wage in 2019
	2.60% general, 3.10% wage in 2018
Salary increases	3.10% to 11.60% including inflation in 2019
•	3.20% to 9.10% including inflation in 2018
Discount rate	7.40% in 2019 and 7.45% in 2018

#### **NOTES TO FINANCIAL STATEMENTS**

June 30, 2020

Mortality rates were based on the Public Sector 2010 mortality tables with generational mortality projections using scale MP-2018.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return were adopted by the System's Board after considering input from the System's investment consultant(s) and actuary(s). For each major asset allocation, the best estimates are summarized in the following table:

Asset Class	Target <u>Allocation</u>	Long-Term Expected Real Rate of Return
Public equity	37.00%	6.30%
Private equity	13.00%	7.50%
Rate sensitive	19.00%	1.30%
Credit opportunity	9.00%	3.90%
Real assets	14.00%	4.50%
Absolute return	<u>8.00</u> %	3.00%
	100.00%	

#### **Discount Rate**

The discount rate used to measure the total pension liability was 7.40%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

# Sensitivity of the Town's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate

The following represents the Town's proportionate share of the net pension calculated using the discount rate of 7.40%, as well as what the Town's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.40%) or 1 percentage point higher (8.40%) that the current rate:

	1% Decrease <u>6.40%</u>	Rate <u>7.40%</u>	1% Increase <u>8.40%</u>
Town's net pension liability	<u>\$641,403</u>	<u>\$443,147</u>	<u>\$278,015</u>

#### Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued System's Comprehensive Annual Report for the fiscal year ended June 30, 2019. This can be found at https://sra.maryland.gov/comprehensive-annual-financial-reports.

#### NOTES TO FINANCIAL STATEMENTS

June 30, 2020

#### (9) INTER-JURISDICTIONAL AGREEMENT

#### Chesapeake Beach Wastewater Treatment Plant

#### **Operating Agreement**

The Town entered into an interjurisdictional agreement with Calvert County, Maryland and the Town of Chesapeake Beach, Maryland to share the operation and maintenance costs of the wastewater treatment plant. The Town's share of operation and maintenance costs is based on the Town's allocation of plant capacity. For the year ended June 30, 2020, the Town's allocation of costs was \$166,519 or 18.09% of fixed costs plus \$153,325 or 25.52% of variable costs.

#### (10) RISK MANAGEMENT

The Town is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Property and liability coverages are provided through third-party insurance to cover any such claims relating to losses. There were no significant reductions in insurance coverage during 2019-2020. Amounts of settlements did not exceed insurance coverage for each of the last three years. The Town's exposure is limited to deductibles on a per claim basis and the coverages on each of the Town's policies are as follows:

Coverage
\$200,000,000
14,235,658
1,000,000
1,000,000
1,000,000
1,000,000
250,000
100,000

Carrage

#### (11) SUBSEQUENT EVENTS

Management has evaluated subsequent events through January 5, 2021, the date on which the financial statements were available to be issued. No material subsequent events have occurred since June 30, 2020 that required recognition or disclosure in the financial statements.

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Town Council Town of North Beach North Beach, Maryland

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities and each major fund of the Town of North Beach, North Beach, Maryland (the "*Town*"), as of and for the year ended June 30, 2020, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements, and have issued our report thereon dated January 5, 2021.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the Town's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the Town's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
